**Introduction to Our Laws** Jan 15 2021 This book introduces the basics of law in Papua New Guinea, and it targets upper secondary legal studies teachers and students. Everyone in this country, including the educated, other than lawyers needs to know and understand our own laws. The National Education Department's motto is "Prosperity through self-reliance"; thus, this project is one out of many the department is yet to accomplish. No recommended text was available at the time when the new course, legal studies, was introduced in 2010 to be taught as an examinable subject. Newly elevated secondary schools in the country are facing reference material problem. The problem of rare stock of resource material is truly a considerable physical and psychological stress suffered by most teachers in the country. This book was written exactly in line with Upper Secondary Legal Studies syllabus as a text material to be used across the nation in all secondary schools in which Legal Studies course is offered. The subject itself is fundamentally interesting. I enjoyed teaching law for the last six years. I gained the insights of basic introductory law while in the process of teaching and writing this book. Hope you enjoy reading this book, "Introduction to Our Laws" and gain the insights of law.

This book contributes new insights within the longstanding traditions of the field. A particular feature is the focus on different units of analysis. Individual chapters compare places, systems, times, cultures, values, policies, curricula and other units.
