Advice and Consent Aug 21 2019 From Louis Brandeis to Robert Bork to Clarence Thomas, the nomination of federal judges has generated intense political conflict. With the coming retirement of one or more Supreme Court Justices—and threats to filibuster lower court judges—the selection process is likely to be, once again, the center of red-hot partisan debate. In *Advice and Consent*, two leading legal scholars, Lee Epstein and Jeffrey A. Segal, offer a brief, illuminating Baedeker to this highly important procedure, discussing everything from constitutional background, to crucial differences in the nomination of judges and justices, to the role of the Judiciary Committee in vetting nominees. Epstein and Segal shed light on the role played by the media, by the American Bar Association, and by special interest groups (whose efforts helped defeat Judge Bork). Though it is often assumed that political clashes over nominees are a new phenomenon, the authors argue that the appointment of justices and judges has always been a highly contentious process—one largely driven by ideological and partisan concerns. The reader discovers how presidents and the senate have tried to remake the bench, ranging from FDR's controversial "court packing" scheme to the Senate's creation in 1978 of 35 new appellate and 117 district court judgeships, allowing the Democrats to shape the judiciary for years. The authors conclude with possible "reforms," from the so-called nuclear option, whereby a majority of the Senate could vote to prohibit filibusters, to the even more dramatic suggestion that Congress eliminate a judge's life tenure either by term limits or compulsory retirement. With key appointments looming on the horizon, *Advice and Consent* provides everything concerned citizens need to know to understand the partisan rows that surround the judicial nominating process.

Appointment of Judges to the Supreme Court of India Sep 26 2022 In *Supreme Court Advocates-on-Record Association v. Union of India*, the Supreme Court of India, by majority, struck down the National Judicial Appointments Commission (NJAC), established to appoint judges to the Supreme Court of India and High Courts. Unsurprisingly, the NJAC judgment has been the subject of a deeply polarized debate in the public sphere and academia. The essays in this volume analyse the NJAC judgment, and provide a rich context to it, in terms of philosophical, comparative, and constitutional issues that underpin it. The work traces the history of judicial appointments in India; analyses constitutional principles behind selecting judges and their application in the NJAC Case; and comparatively examines the judicial appointments process in six select countries—UK, South Africa, Pakistan, Sri Lanka, Canada, and Nepal—enquiring into what makes a good judge and an effective appointments process.

Appointment in Paris Feb 19 2022 First Digital Edition; Grier Rating: A* "She was very young, very American and very innocent. Then Paris, city of light - and shadow - took her by the hand for the dangerous journey... into love." Primarily set against the backdrops of Paris and the French countryside, and taking us back in time to the year 1936, *Appointment in Paris* tells the story of a young girl named Havoc. Hattie, as she is also known, is having a difficult time living under the strict watchful eye of her aunt. She wants to strike out for adventure on her own. One day she meets Marcelle, a woman older than she, in the hallway of their apartment building. Neither can ignore the spark of attraction that flames between them and before long they are hopelessly head over heels in love. The time in which they live, however, is very dangerous as World War II rages all around them. Will the war and the turbulent circumstances they encounter change Hattie and Marcelle? Will they be separated by events beyond their control? Or will their love be able to survive against all odds? Travel back in time with the wonderfully vibrant and well-written *Appointment in Paris* to find out!

The Appointment Apr 28 2020 'I've been summoned, Thursday, ten sharp.' So begins one day in the life of a young clothing-factory worker during Ceausescu's totalitarian regime. She has been questioned before, but this time she knows it will be worse. Her crime? Sewing notes into the linings of men's suits bound for Italy. 'Marry me', the notes say, with her name and address. Anything to get out of the country. As she rides the tram to her interrogation, her thoughts stray to her friend Lilli, shot while trying to flee to Hungary; to her grandparents, deported after her first husband informed on them; to Major Albu, her interrogator, who begins each session with a wet kiss on her fingers; and to Paul, her lover and the one person she can trust. In her distraction, she misses her stop and finds herself on an unfamiliar street. And what she discovers there suddenly puts her fear of the appointment into chilling perspective. Bone-spine and intense, *The Appointment* is a pitiless rendering of the terrors of a crushing regime.

Debating Judicial Appointments in an Age of Diversity Feb 07 2021 What should be the primary goals of a judicial appointments system, and how much weight should be placed on diversity in particular? Why is achieving a diverse judiciary across the UK taking so long? Is it time for positive action? What role should the current judiciary play in the appointment of our future judges? There is broad agreement within the UK and other common law countries that diversity raises important questions for a legal system and its officials, but much less agreement about the full implications of recognising diversity as an important goal of the judicial appointments regime. Opinions differ, for example, on the methods, forms, timing and motivations for judicial diversity. To mark the tenth anniversary of the creation of the Judicial Appointments Commission (JAC) in England and Wales, this collection includes contributions from current and retired judges, civil servants, practitioners, current and former commissioners on the JAC and leading academics from Australia, Canada, South Africa and across the UK. Together they provide timely and authoritative insights into past, current and future debates on the search for diversity in judicial appointments. Topics discussed include the role and responsibility of independent appointment bodies; assessments of the JAC's first ten years; appointments to the UK Supreme Court; the pace of change; definitions of 'merit' and 'diversity'; mandatory retirement ages; the use of ceiling quotas; and the appropriate role of judges and politicians in the appointments process.

HC 741 - Appointment of the Chief Commissioner of the Independent Commission for Aid Impact Jun 11 2021 The Chief Commissioner of ICAI has a crucial role in scrutinising aid spending by the UK Government and reporting to Parliament through the International Development Committee. The Committee are pleased to endorse the appointment of Dr Alison Evans to this post, but recommend that at least one of the existing Commissioners be reappointed for a further term to ensure continuity, and that one of the Commissioners be an audit professional. The selection process used resulted in an unranked list of four candidates deemed "appointable" being presented to the Secretary of State for consideration. This puts too much power in the hands of the Secretary of State for an independent scrutiny post and threatens to undermine the candidate in the eyes of the public who may assume that the candidate most sympathetic to DFID was chosen. The Committee recommend that panels for ICAI Commissioner appointments should be invited to rank candidates or otherwise advise the Secretary of State as they see fit. In the longer term, it is recommended that the Committee be able to choose the Chief Commissioner from the list of candidates.

Appointment of Judges Jan 06 2021 The selection of federal judges constitutes one of the more significant legacies of any president; the choices of Lyndon Baines Johnson affected important social policies for decades. This book explores the process of making judicial appointments, examining how judges were selected during Johnson's administration and the president's own participation in the process. *Appointment of Judges: The Johnson Presidency* is the first in-depth study of the judicial selection process in the Johnson years and is one of the few books that has analyzed any individual president's process. Based on sources in the archives of the Lyndon Baines Johnson Library and correspondence from senators, party officials, Justice Department officers, the American Bar Association, Supreme Court justices, and the candidates themselves, the book is an important exploration of a significant aspect of presidential power. The author shows that Johnson recognized the great impact for social and economic policy the judiciary could have in America and sought out judges who shared his vision of the Great Society. More than any previous president since William Howard Taft, Johnson took an active personal role in setting up the criteria for choosing judges and in many cases participated in decisions on individual nominees. The president utilized the resources of the White House, the Department of Justice, other agencies, and private individuals to identify judicial candidates who met criteria of compatible policy perspective, excellent legal qualifications, political or judicial experience, youth, and ethnic diversity. The book notes how the criteria and judicial selection process evolved over time and how it operated during the transitions between Kennedy and Johnson and between Johnson and Nixon.
