[LAW OF COPYRIGHT](#) Oct 24 2021 The book attempts to critically analyse the cases on the law of copyright as well as statutory provisions of law of copyright. When the first edition of the book was published in 2015, there was no readable and dependable book for the general reader interested to be acquainted with the changing features of the law of copyright immediate after the enactment of the Copyright (Amendment) Act 2012. Since the publication of this book, the Finance Act 2017 has introduced Appellate Board in place of Copyright Board as well as the Supreme Court and High Courts in India have also delivered a large number of judicial decisions on the law of copyright. In this edition the author has surveyed all such Courts decisions and analysed them and inserted them in appropriate places of the book and also examined the impact of the Appellate Board. It presents not only the provisions of the Copyright Act 1957 in the form of a normative, but points out the changes made thereon by formal amendments as well as conflicts of law which have been settled by judicial interpretations. The book is divided into ten chapters. Chapter 1 is introductory, while Chapters 2 and 3 discuss the origin and development of law of copyright at international as well as national level. The most important debatable issue in copyright law is “works in which copyright subsists”, and the Chapter 4 is devoted to this aspect. Chapter 5 explores various issues relating to author of work, owner of copyright and recognised rights of copyright owner. The terms of copyright, licensing of copyright, international copyright and registration of copyright are the subject matter of

Chapter 6, while rights of broadcasting organisation and of performers (neighbouring rights) are the subject matter of Chapter 7. Internet is the greatest communication medium of the contemporary era, and there is an inherent link between law of copyright and internet. Therefore, Chapter 8 is devoted to discuss various issues relating to “protection of copyright in internet.” While Chapter 9 demonstrates the law relating to infringement of copyright and defences of copyright liability. Chapter 10, the concluding chapter, discusses the enforcement of copyright in India in detail. Though the book is designed for the undergraduate and postgraduate students of Law, it will be equally beneficial for the researchers, academicians, jurists, lawyers, judges as well as members of civil society. TARGET AUDIENCE • Undergraduate and postgraduate students of Law. • Researchers, Academicians, Jurists, Lawyers, Judges as well as members of Civil Society.

*Doing Business 2008* Nov 05 2022 Regulations affecting 10 areas of everyday business are measured: starting a business, dealing with licenses, employing workers, registering property, getting credit, protecting investors, paying taxes, trading across borders, enforcing contracts, and closing a business. 'Doing Business 2008' updates all 10 sets of indicators, ranks countries on their overall ease of doing business, and analyzes reforms to business regulation - identifying which countries are improving their business environment the most and which ones slipped. The indicators are used to analyze economic outcomes and identify what reforms have worked, where and why. 'Doing Business 2008' focuses on how complex business regulations dampen investment, growth and job creation in all businesses, and especially opportunities for women entrepreneurs.

*Imperfect Misfits* Dec 02 2019 Tiasha: I am very annoyed. Aakaash: That's your job, Tiasha. Good that you are doing it well. Tiasha: And I am very serious. Aakaash: When are you not! Tiasha: Argh! I hate you, Aakaash. Aakaash: Thank God for small mercies! Just like a scoop of vanilla ice cream makes the sizzling chocolate brownie delicious, these best friends complimented each other. A chef by passion, Tiasha jumps and waves through her professional choices, while Aakaash, the witty stand-up comedian, knows exactly what he wants. He was the tranquility which refugees crave to stay in, and she was the refugee, who wanted to wander and explore. *Imperfect Misfits* is a story of perfect misfits, food, frolic, emotions and their endless imperfections. The question is, will their friendship survive through this wavy journey of love?

*Indian Business Case Studies Volume II* May 31 2022 It has been decades since many business schools outside India adopted the case study methodology for teaching almost all branches of management studies. This trend has been seen in India, too, where top management institutes have implemented the case study-based methodology as an important pedagogical tool in business education. The major issue in India, however, is a severe shortage of Indian case studies through which business schools can provide industry insights to students. This volume fills that gap. It has twenty Indian cases related to different aspects of business management. The cases cover some of the prominent disciplines of management like marketing, finance, human resource management, strategy management, operations management, accounting, and mergers and acquisitions. These cases best serve the purpose of adoption of 'case methodology' in classroom teaching or online lecture sessions for the faculty and students of business management.

**Advances in Renewable Energy and Electric Vehicles** Sep 22 2021 This book presents select proceedings of the International Conference on Advances in Renewable Energy and Electric Vehicles (AREEV 2020), and examines related emerging trends, feasible solutions to shape and enable the development of mankind. The topics covered include renewable energy sources, electric vehicles, energy storage systems, power system protection & security, smart grid and wide band-gap semiconductor technologies. The book also discusses applications of signal processing, artificial neural networks, optimal and robust control systems, and modeling and simulation of power electronic converters. The book will be a valuable reference for beginners, researchers, and professionals interested in power systems, renewable energy, and electric vehicles.

**Mahesh Dattani** Jul 29 2019 Richard Wagner (1813-1883) aimed to be more than just a composer. He set out to redefine opera as a "total work of art" combining the highest aspirations of drama, poetry, the symphony, the visual arts, even religion and philosophy. Equally celebrated and vilified in his own time, Wagner continues to provoke debate today regarding his political legacy as well as his music and aesthetic theories. Wagner and His World examines his works in their intellectual and cultural contexts. Seven original essays investigate such topics as music drama in light of rituals of naming in the composer's works and the politics of genre; the role of leitmotif in Wagner's reception; the urge for extinction in *Tristan und Isolde* psychology and symbol; Wagner as his own stage director; his conflicted relationship with pianist-composer Franz Liszt; the anti-French satire *Eine Kapitulation* in the context of the Franco-Prussian War; and responses of Jewish writers and musicians to Wagner's anti-Semitism. In addition to the editor, the contributors are Karol Berger, Leon Botstein, Lydia Goehr, Kenneth Hamilton, Katherine Syer, and Christian Thorau. This book also includes translations of essays, reviews, and memoirs by champions and detractors of Wagner; glimpses into his domestic sphere in *Tribtschen* and *Bayreuth*; and all of Wagner's program notes to his own works. Introductions and annotations are provided by the editor and David Breckbill, Mary A. Cicora, James Deaville, Annegret Fauser, Steven Huebner, David Trippett, and Nicholas Vazsonyi.

*The Process of Social Value Creation* Jun 07 2020 This book discusses social entrepreneurship, especially in context of India. It focuses on understanding the whole process of social value creation, i.e. social entrepreneurship - opportunity identification, resource mobilisation, social value, capabilities of social entrepreneurs and innovation in three different types of social enterprises – (i) non-profit or charitable ones; (ii) non-profit social enterprise, sustainable with the combined income of grants, subsidies and own earned income; self-sustainable not-for-profit social enterprise; and hybrid social enterprise; and (iii) for-profit social enterprises. Sample cases of social entrepreneurs (Ashoka Fellows) were selected from three inter-linked sectors -- health, education and livelihood. To provide a comprehensive view, interviews were taken not only from the founders (social entrepreneurs), management personnel, and other employees, but also from the beneficiaries. The book comprises how, on the basis of cross-comparison between three types of social enterprises, several propositions and finally theoretical framework on social entrepreneurship have been developed. It proposes that social entrepreneurship can be acquired and that these social entrepreneurs can help solve the larger social problems faced both by developing and developed nations.

*Plant Growth Promoting Rhizobacteria for Agricultural Sustainability* Sep 10 2020 To meet the food security needs of the 21st century, this book focuses on ecofriendly and sustainable production technologies based on plant growth promoting rhizobacteria (PGPR). It is estimated that the global population could increase to 9 billion by 2050. Further, the amount of land devoted to farming has decreased. Soil is a living entity, and is not only a valuable natural resource for agricultural and food security, but also for the preservation of all life processes. Agricultural productivity rests on the foundation of microbial diversity in the soil, and in recent years, PGPR have emerged as an important and promising tool for sustainable agriculture. The injudicious use of agrochemicals by farmers has created a range of negative impacts, not only threatening the environment, but also destroying useful microorganisms in the soil. The efficient use of PGPR reduces the need for these chemicals while simultaneously lowering production costs. In turn, increased yields could provide a more favourable environment and encourage sustainability. This book assesses the impacts of PGPR on crops, environmental and socio-economic sustainability, and demonstrates these ecofriendly technologies' three critical advantages, namely (a) enhanced crop productivity, (b) reduced application of agrochemicals, and (c) increased incomes for farmers. Besides offering an economically attractive and ecologically sound means of augmenting the nutrient supply and combatting soil-borne pathogens, PGPR play an important part in boosting soil fertility, bioremediation and stress management for the development of ecofriendly and sustainable agriculture.

*FAO Regional Strategy on Food Loss and Waste Reduction in Asia and the Pacific* Mar 17 2021 Food loss and waste (FLW) is one of the key areas under SP4 and BN4 as well as the MPI on Resilient Food Systems in RAP. FAO is well positioned as a global knowledge leader on food loss and waste and many of the other regions already have a tailored regional strategy on FLW reduction. In response to the last two APRC's as well as in line with the ZHC, and more recently the new FAO Strategic framework, this publication provides a basis for FAO and others to understand the scope and depth of FLW issues, how these can be addressed, including some good practices from Thailand, China and Nepal. As a multidisciplinary publication, it includes strong elements on policy and statistics with FAO as leading a convenor on SDG 12.3 on FLW measurement and reduction, highlights the scope and opportunities for FLW reduction as part of climate change efforts and also in terms of improved nutrition. It builds upon the analysis and advice of the SOFA 2019 on food loss and waste and identifies key pillars for interventions as well as recommendations for the technical as well as policy/decision makers in the Asia Pacific region. It is strongly linked to the FAP Global Programme on food loss and waste being implemented by headquarters.

**Nanoscience and Biotechnology for Environmental Applications** May 07 2020 This book presents the complete guide for readers to understand the applications, and pros and cons of nanotechnology applications in environmental remediation, although there are few critical reviews and textbooks available on environmental biotechnology. Water pollution has become one of the biggest concerns of the world. After the industrialisation and urbanisation, environmental pollution has become an enormous concern. Water pollution results in biomagnifications by entering the food chain. As a result water pollution and its risks need to be considered seriously and solutions need to be researched. This volume looks into such topics as bioremediation, nanobiotechnology, biosensors, and enzyme degradation to find solutions to these problems.

*The Field Guide to Counseling Toward Solutions* Apr 29 2022 The Field Guide to Counseling Toward Solutions When it was first published in 1995, Linda Metcalf's book Counseling Toward Solutions became an instant bestseller. The book offered a new and positive program for changing individual behavior that helped K-12 students with their own problems and gave themselves-esteem in the process. Now, The Field Guide to Counseling Toward Solutions offers school counselors, teachers, and administrators a complete program for changing the way that schools deal with a variety of issues. From an alternative school program that enlists the power of teacher mentors to the elementary program that involves the teacher, parent, and student in the counseling process, this book shows how to make change happen and how to make it last. The solution-focused approach helps everyone involved to begin their own change process by noticing when a problem does not occur, rather than focusing on the problem or what caused it. It includes information targeted to specific age groups—elementary school students, middle schoolers, and adolescents—because each developmental stage requires a certain perspective and focus in order to collaborate and reach solutions. The Field Guide to Counseling Toward Solutions offers guidelines for developing a school-wide program that encompasses virtually all of the day-to-day programming that schools must provide for students. The book includes techniques and suggestions for: Training staff to become more solution-focused and student-centered Working together with teams, teachers, and parents so that the "system" creates and maintains change Creating support groups for parents and students Reducing special education referrals through solution-focused conversations In this book, bestselling author and veteran school counselor Linda Metcalf offers more than a simple positive strategy or technique—she provides a way to think about school "clients" that can change interactions and guarantee success.

**Proceedings of the International Conference on Research and Innovations in Mechanical Engineering** Oct 31 2019 This book comprises the proceedings of International Conference on Research and Innovations in Mechanical Engineering (ICRIME 2013) organized by Guru Nanak Dev Engineering College, Ludhiana with support from AICTE, TEQIP, DST and PTU, Jalandhar. This international conference served as a premier forum for communication of new advances and research results in the fields of mechanical engineering. The proceedings reflect the conference's emphasis on strong methodological approaches and focus on applications within the domain of mechanical engineering. The contents of this volume aim to highlight new theoretical and experimental findings in the fields of mechanical engineering and closely related fields, including interdisciplinary fields such as robotics and mechatronics.

**All the World is a Stage** Jan 15 2021 "This beautifully produced pictorial volume traces the journey of Ludhiana's evolution in the field of performing arts – a journey that's intrinsically woven into the weft and weave of the Ludhiana Sanskritik Samagam or the LSS. 'To create a world of art. A world of creative expressions.' This was the objective of the LSS when it began as a membership club. But what the LSS did to Ludhiana's art and culture scene was something that even the founders did not envisage. Taking us behind the scenes, the authors Sunil Kant Munjal and S K Rai, reveal a gamut of experiences – some funny, some serious, some exceptional – but all human... as performers from various walks of life make the stage come alive in Ludhiana at the LSS. Read about how Jaya Bachchan brought drama to real life; Anupam Kher's untold story; the dedication of the Shah family; the humility and warmth of Pandit Jasraj... This book is a must-read for art connoisseurs looking for insights into their favorite icons."

**Cyber Law in Bangladesh** Apr 17 2021 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to cyber law – the law affecting information and communication technology (ICT) – in the Bangladesh covers every aspect of the subject, including intellectual property rights in the ICT sector, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions, privacy issues, and computer crime. Lawyers who handle transnational matters will appreciate the detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the book assembles its information and guidance in seven main areas of practice: the regulatory framework of the electronic communications market; software protection, legal protection of databases or chips, and other intellectual property matters; contracts with regard to software licensing and network services, with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, electronic banking, and electronic commerce; specific laws and regulations with respect to the liability of network operators and service providers and related product liability; protection of individual persons in the context of the processing of personal data and confidentiality; and the application of substantive criminal law in the area of ICT. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in the Bangladesh will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field.

**Investing for Development** Sep 03 2022 CDC Group Plc, formerly the Commonwealth Development Corporation, is the United Kingdom's Development Finance Institution. Wholly owned by the Department for International Development (DFID), it aims to help reduce poverty by supporting private sector development. CDC invests equity in private enterprises in developing countries in order to demonstrate to other investors that it is possible to make money in such countries, while at the same time creating sustainable jobs, paying taxes and following good social and environmental policies. DFID restructured CDC in 2004 in order to invest indirectly, through private fund managers. CDC invests largely in sub-Saharan Africa and South Asian enterprises in sectors as diverse as retail, financial, agricultural and manufacturing. Since 2004, CDC has grown rapidly, more than doubling the value of its assets to £2.7 billion by mid-2008. DFID's oversight of certain elements of business efficiency needs to be improved. CDC invests over 70 per cent of its resources in poor countries, but has limited influence where its fund managers invest. Only 4 per cent of its resources are invested in small and medium enterprises, which suffer a shortage of finance. For DFID, financial performance is the principal indicator of CDC's development impact, but this information is not sufficient to assess CDC's effect on poverty reduction and not enough is done to measure compliance with ethical investment principles. The level and nature of CDC executive remuneration are also relevant to business efficiency and management incentives. The Chief Executive's remuneration increased from £383,000 in 2003 to £970,000 in 2007, reflecting in part CDC's exceptional financial performance but pay arrangements place too much emphasis on financial performance and too little on success in reducing poverty.
