Behold a Pale Horse Sep 10 2020 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Patriot Dawn Dec 14 2020 The United States has descended into Civil War. A terrorist attack on the United States leads to war with Iran, followed by collapse, as the economy goes over the cliff. The final blow is a widespread opportunistic Chinese cyber attack, taking down the North American Power Grid. From the ashes, the Regime emerges and what remains of the United States of America is polarized. Soon after, the Resistance Rises. Jack Berenger is a former Army Ranger Captain, living in northern Virginia with his family. Following the collapse, they evacuate to the farm of an old Army friend. Jack is recruited into the resistance, to train the fledgling forces in the Shenandoah Valley. Soon after, the fight quickly begins.

Stinger Missile Publications Combined: Manportable Air Defense (MANPAD) Technical And Doctrinal History From 1980 To 2018 Dec 26 2021 Over 2,800 total pages ... INTRODUCTION Today's operational environment presents threats the Army has not faced in nearly 20 years. Against peer competitors, the joint force may face air parity or even localized enemy air overmatch, challenging the assumption of air superiority the joint force has held since the Korean War. This will make maneuver forces vulnerable to air attack by fixed- and rotary-wing aircraft, unmanned aircraft systems, and cruise missiles. Maneuver forces lack capacity and capability to address these threats and the Army requires a speedy response. Stinger missiles provide a key capability for maneuver forces to defend themselves from aerial observation and attack. However, without direct involvement from senior brigade combat team leaders and effective leader training, these missiles will become dead weight at best or a fratricide in waiting at worst. Units must plan effectively to utilize this capability and ensure it ties directly to their scheme of maneuver as opposed to simply task-organizing one Stinger team per company. Refounding America Sep 22 2021 America is fighting a Civil War today. Between the Citizen and the State. On one side are the Patriots, people who support the Constitution and our system of government: limited in its power over your life. A system of checks and balances and small government where the important decisions are made by the States, not Washington. A system where 'We the People' has real meaning, where Rights apply to individuals, and where the Government has only duties. Patriots trust the people. On the other side are the Progressives, people who believe that ethics and morality and law come not from God but from the Government. Their vision is for a system where the Government becomes the Nanny State, and in the process Big Brother, taking care of them from Cradle to Grave. All you have to give up for this Utopia is your personal freedom and all your Rights - which turn out to be not so inalienable after all. Progressives trust the State. Refounding America is about fighting this Patriotic War against the Progressives who would have their State take over every aspect of our lives. Their prescription for "hope" and "change" is Socialism, the first step on the slippery slope to Marxism. Over 60 years ago, George Orwell warned us about this coming totalitarian dystopia in his works 1984 and Animal Farm. In the latter, all the animals were equal - except the elitist Pigs, who were more equal. Sound familiar? Refounding America is the field manual for the other animals in the barnyard who want their own personal freedoms back and are sick and tired of the Pigs telling them what to do. Refounding America is the handbook loaded with practical, tactical strategies to "Take Back America Now," and win the battle against the Progressives.

Governing Security Jul 09 2020 Statutes and regulations are frequently designed to affect the public in specific ways. But exactly how these laws ultimately impact the public often depends on how politicians go about securing control of the complex public agencies that implement policies, and how these organizations in turn are used to define the often-contested concept of "national security." Governing Security explores this dynamic by investigating the surprising history of two major federal agencies that touch the lives of Americans every day: the Roosevelt-era Federal Security Agency—which eventually became today's Department of Health and Human Services—and the more recently created Department of Homeland Security. By describing the legal, political, and institutional history of both organizations, Mariano-Florentino Cuéllar offers a compelling account of crucial developments affecting the basic architecture of our nation. He shows how Americans end up choosing security goals not through an elaborate technical process, but in lively and overlapping settings involving conflict over statutory programs, agency autonomy, presidential power, and priorities for domestic and international risk regulation. Ultimately, as Cuéllar shows, ongoing fights about the scope of national security reshape the very structure of government and the intricate process through which statutes and regulations are implemented, particularly during—or in anticipation of—a national crisis.
