The General Aviation Handbook Mar 25 2022

This is a completely new and revised edition of
the General Aviation Handbook, long overdue
since it has been over 10 years since the last
edition was published. This edition is fully
revised and updated and contains 10 years
worth of updated material, including the
addition of a number of manufacturers and
aircraft which were omitted from earlier editions
for various reasons. Aircraft new to this edition
include the so-called "heavy microlights", which
are now an important part of the worldwide light
aircraft scene. About 90 percent of the photos
are new, and larger page size provides greater

space for large data tables and photos. Previous editions have been strong sellers; this is the main reference book on this important sector of the aviation world, and this new edition will be welcomed by both aviation enthusiasts and those involved in the aviation industry.
