A Hercules in the Cradle Apr 27 2022 Max M. Edling shows how the fledgling American government raised money and incurred debt for its military needs, from the War of Independence through the War of 1812, the Mexican War, and the Civil War. America's military strength, Edling shows, was a function of its ability to raise money--and it was only when this ability flourished that America began to become an international power. By the time of the Civil War, Edling writes, less than a century after war broke out between Britain and her American colonies, the United States had traveled a long way toward its present position as the most powerful nation in the world. Killing Hercules Nov 10 2020 This book offers an entirely new reception history of the myth of Hercules and his wife/killer Deianira. The book poses, and attempts to answer, two important and related questions. First, why have artists across two millennia felt compelled to revisit this particular myth to express anxieties about violence at both a global and domestic level? Secondly, from the moment that Sophocles disrupted a myth about the definitive exemplar of masculinity and martial prowess and turned it into a story about domestic abuse, through to a 2014 production of Handel's Hercules that was set in the context of the 'war on terror', the reception history of this myth has been one of discontinuity and conflict; how and why does each culture reinvent this narrative to address its own concerns and discontents, and how does each generation speak to, qualify or annihilate the certainties of its predecessors in order to understand, contain or exonerate the aggression with which their governors – of state and of the household – so often enforce their authority, and the violence to which their nations, and their homes, are perennially vulnerable?

Children Playing Before a Statue of Hercules Dec 24 2021 "When apple-picking season ended, I got a Job in a packing plant and gravitated towards short stories, which I could read during my break and reflect upon for the remainder of my shift. A good one would take me out of myself and then stuff me back in, outsized, now, and uneasy with the fit . . . Once, before leaving on vacation, I copied an entire page from an Alice Munro story and left it in my typewriter, hoping a burglar might come upon it and mistake her words for my own. That an intruder would spend his valuable time reading, that he might be impressed by the description of a crooked face, was something I did not question, as I believed, and still do, that stories can save you".

[Seneca's "Hercules furens"](#) Aug 08 2020 John G. Fitch's new Latin text of Seneca's play, Hercules Furens, is based on a collation of the chief manuscripts, including the Paris manuscript T. In his introduction, Fitch traces the conflicting classical portrayals of Hercules—a figure embodying altruism and aggrandizement, restraint and wildness—and argues that in the play, the untamed side of his nature ultimately turns against him and destroys him. In introductory notes to individual acts and choral odes, Fitch addresses the play's thematic development and discusses probable influences, including the Greek tragedies of the fifth century B.C., the tragedies of the Hellenistic and Roman Republican periods, and the writings of the Augustan poets, particularly Ovid. His line-by-line commentary focuses on such stylistic matters as wordplay, soundplay, meter, diction, and rhetoric, and he also looks closely at line divisions and at characteristic metrical patterns and anapestic odes. Fitch's assessment of the figure of Hercules in ancient literature, popular religion, and literary/moral tradition will be of compelling interest to classicists and students of later periods.
