If Harry Potter Ran General Electric Feb 02 2020 However important the magic of wands, brooms, cauldrons, potions, and spells might be to the vivid story telling of [the Harry Potter] books, it is merely incidental to their philosophy of life.... I can't count the number of times I've heard someone in a business context say something like "I wish I could just magically solve all these problems" or "I'll try my best to deal with this, but remember, I'm no magician." What is particularly interesting is that the most difficult problems that the people in Harry's world face are rarely solved with just magic, but rather by the use of intelligence, reasoning, planning, courage, determination, persistence, resourcefulness, creativity, fidelity, friendship, and many other qualities traditionally known by the philosophers in our world as virtues.... The meaning of life is not to be found in elixirs or incantations, secret words or exotic objects with esoteric powers, but in real moral

virtue and the magic of what it can help us do....” J. K. Rowling’s novels about Harry Potter and the Hogwarts School of Witchcraft and Wizardry have captured the imaginations of people everywhere. In *IF HARRY POTTER RAN GENERAL ELECTRIC*, bestselling business author Tom Morris (*IF ARISTOTLE RAN GENERAL MOTORS*) uncovers the values and timeless truths that underlie Rowling’s hugely popular books and illuminate the lessons they offer to all of us in our careers and daily lives. But, you say, Harry Potter lives in a world of magic? What can we possibly learn to apply to our own careers and everyday lives? Morris shows that the most difficult problems Harry and his friends face are rarely solved by the use of magic alone. Rather, they are conquered by intelligence, reasoning, determination, creativity, friendship, and a host of other classic virtues—the very qualities, in fact, that make for success in every aspect of our lives. Blending an array of provocative examples from the novels with thought-provoking commentary on contemporary management practices, *IF HARRY POTTER RAN GENERAL ELECTRIC* offers readers a master’s course on leadership and ethics, told in an engaging and insightful way.
