But after a lifetime of making Long Drops, multi-year FTL conquest missions, he found himself restless for new adventure. So when an old friend showed up, it didn't much convincing for Vasco to sign up for one more Long Drop. Rumi is the destination. One of the last human worlds still unsaved, it's also the only bridge to the Laconians, sole suppliers of the super-computers that run the empire. And beyond the Laconians, the Pook, an enigmatic race that once destroyed swathes of the galaxy in a relativistic war. All Vasco wants is one last shot at proving himself the warrior he always knew he could be. But the Anubis War will push him farther than he ever imagined.

Steel World Feb 24 2022 In the twentieth century Earth sent probes, transmissions and welcoming messages to the stars. Unfortunately, someone noticed. The Galactics arrived with their battle fleet in 2052. Rather than being exterminated under a barrage of hell-burners, Earth joined their vast Empire. Swearing allegiance to our distant alien overlords wasn't the only requirement for survival. We also had to have something of value to trade, something that neighboring planets would pay their hard-earned credits to buy. As most of the local worlds were too civilized to have a proper army, the only valuable service Earth could provide came in the form of soldiers...someone had to do their dirty work for them, their fighting and dying. I, James McGill, was born in 2099 on the fringe of the galaxy. When Hegemony Financial denied my loan applications, I was kicked out of the university and I turned to the stars. My first campaign involved the invasion of a mineral-rich planet called Cancri-9, better known as Steel World. The attack didn't go well, and now Earth has entered a grim struggle for survival. Humanity's mercenary legions go to war in STEEL WORLD, bestselling author B. V. Larson's latest science fiction novel.

Abandoned by all but its captain, Odyssey's sacrifice covered the withdrawal of countless troops as the Drasin assault ravaged the planet. When Captain Eric Weston finally emerges from the rubble, impossibly alive thanks to the mysterious "Gaia," he knows with the Drasin it's kill or be killed. But not all of the heavens have proven hostile. The Priminae have felt the full brunt of Drasin aggression on their own home world, and they won't leave humanity to face annihilation alone. Together with what's left of the crews of the Odyssey and other starships, they race to join Weston and his group of Earth-bound survivors for a desperate last stand. The final battle of the Drasin War brings bestselling author Evan Currie's Odyssey One series to its shattering conclusion.

But when he relives his traumatic final moments, he finds the spark to keep on living. That spark is vengeance. Trapped and desperate on a world surrounded by alien Prador forces, Spear had seen a rescue ship arriving. But instead of providing backup, Penny Royal, the AI within the destroyer turned rogue.
