The North American West in the Twenty-First Century Aug 31 2022 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity. In the late twentieth century, "new western" historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress. While Turner's frontier is no more, the West continues to present America with challenging processes to wrestle, navigate, and overcome. *The North American West in the Twenty-First Century*, edited by Brenden W. Rensink, takes stories of the late twentieth-century "modern West" and carefully pulls them toward the present—explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s. Considering a broad range of topics, including environment, Indigenous peoples, geography, migration,

and politics, these essays straddle multiple modern frontiers, not least of which is the temporal frontier between our unsettled past and uncertain future. These forays into the twenty-first-century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness.

The first study to analyze print vernacular herbals from the standpoint of gender, this book also recognizes the rhetorical agenda of female writers who claim herbal practice. As she examines women's herbal language across various genres and in both manuscript and print, Laroche also incorporates meticulous archival research which ultimately generates original findings to do with women's ownership of medical texts.

Iris Grace Dec 31 2019 "Iris' story, as told and photographed by her mother, beautifully deciphers the way a child with autism sees and approaches the world . . . Compelling reading" (Booklist, starred review). Iris Grace is a beautiful little girl who, from a very young age, barely communicated, avoided social interaction with other people, and rarely smiled. Both before her diagnosis of autism and after, she seemed trapped in her own world, unable to connect with those around her. One day, her mother brought home a Maine Coon kitten for Iris, even though cats aren't typically thought of as therapy pets. Thula, named after one of Iris's favorite African lullabies and meaning "peace" in Zulu, immediately bonded with Iris. Thula knew right away how to assuage Iris when she became overstimulated; when to intervene when Iris became overwhelmed; and how to provide distraction when Iris started heading toward a meltdown. Whether exploring, playing, sleeping, or taking a bath with Iris or accompanying the family on a bike ride, Thula became so much more than a therapy cat. With Thula's safe companionship, Iris began to talk and interact with her family. This

heartwarming story is illustrated with both the author's photographs and sixty of Iris's gorgeous impressionistic paintings, works of art that have allowed her to express herself since the age of three. A gifted artist, Iris sees the natural world in a profoundly vivid and visceral way. With Thula by her side, she'll sit and paint for hours, and the results are stunning. Inspiring and touching, Iris Grace follows the struggles and triumphs of a family—and a miracle cat—as they learn to connect with an amazing child.
