**Safe House** Aug 31 2022 Parenting isn't rocket science, it's just brain surgery. And Dr. Joshua Straub has good news for you: You can do it! You don't need to do all the “right” things as a parent. Both science and the Bible show us that the most important thing we can provide for our kids is a place of emotional safety. In other words, the posture from which we parent matters infinitely more than the techniques of parenting. Emotional safety—more than any other factor—is scientifically linked to raising kids who live, love, and lead well. Learn how to use emotional safety as a foundation from which you parent—and make a cultural impact that could change the world! In Safe House, Dr. Straub draws from his extensive research and personal experience to help you: - Foster healthy identity and social development in children of any age - Win the war without getting overwhelmed in the daily battles - Discipline in a way that builds relationship - Understand how the culture is affecting your child and what you can do about it - Cultivate responsible, self-regulating behavior in your kids - Establish an unshakeable sense of faith, morality, and values in your home - Feel more confident and peaceful as a parent - Find a greater perspective on parenting than what you might see on a daily basis Also includes a Safe House Parenting Assessment.

**Key Words of the Kingdom** Jun 28 2022 Can America regain its strength? Not without effort. Not without careful design. Not without family values, morals, and God as the center of our daily lives. People are asking, "What is happening to America? Why is everything so messed up? How did we get to this situation? Where is God?" Our society has been allowed to be one without God as the center. Families are on their second and third generations being raised outside the Church and Bible. God is not in our schools. God is not in our government. God is not in our families. Our young parents of today's children are hungry for the Truth. They search for the 'how to' lessons showing how they should parent, teach and live their lives. They are determined to raise their children in God's Kingdom. Education has turned a complete 180 from its original design and intent. In the beginning, schools were designed to learn to read and write from the Bible. Education has expelled prayer from

classrooms. Education has removed God from the schools. Education has lost sight of education! The focus has shifted from the Bible, and even from students in recent years. The current focus is testing and test scores. It is driven by these numbers to no longer be realistic of the development, needed skills, creativity and individual strengths of students. We are 'dumbing down' America!

Homeschooling has become a popular choice of education in recent years. Homeschooling has the advantage of allowing God to be the center of said education. The Kids of the Kingdom Books would be beneficial spiritual curriculum for parents of homeschoolers or children's ministry leaders.

Whatever the setting, Kids of the Kingdom Books are designed to further God's Kingdom through our families, as they prepare young children of today to take back the best America ever! How are Kingdom Studies Different? The defining difference found in Kids of the Kingdom studies is the involvement of the Holy Spirit. It is learning about the roles of God, Jesus and the Holy Spirit in our daily lives.

**Middle School Matters** Dec 11 2020 A counselor and popular Washington Post contributor offers a new take on grades 6-8 as a distinct developmental phase--and the perfect time to set up kids to thrive. Middle school is its own important, distinct territory, and yet it's either written off as an uncomfortable

rite of passage or lumped in with other developmental phases. Based on her many years working in schools, professional counselor Phyllis Fagell sees these years instead as a critical stage that parents can't afford to ignore (and though "middle school" includes different grades in various regions, Fagell maintains that the ages make more of a difference than the setting). Though the transition from childhood to adolescence can be tough for kids, this time of rapid physical, intellectual, moral, social, and emotional change is a unique opportunity to proactively build character and confidence. Fagell helps parents use the middle school years as a low-stakes training ground to teach kids the key skills they'll need to thrive now and in the future, including making good friend choices, negotiating conflict, regulating their own emotions, be their own advocates, and more. To answer parents' most common questions and struggles with middle school-aged children, Fagell combines her professional and personal expertise with stories and advice from prominent psychologists, doctors, parents, educators, school professionals, and middle schoolers themselves.
