Loaded Jul 28 2019 The 120 Days of Sodom is the Marquis de Sade's masterpiece. A still unsurpassed catalogue of sexual perversions and the first systematic exploration of the psychopathology of sex, it was written during Sade's lengthy imprisonment for sexual deviancy and blasphemy and then lost after the storming of the Bastille during the French Revolution in 1789. Later rediscovered, the manuscript remained unpublished until 1936 and is now introduced by Simone de Beauvoir's landmark essay, 'Must We Burn Sade?' Unique in its enduring capacity to shock and provoke, The 120 Days of Sodom must stand as one of the most controversial books ever written, and a fine example of the Libertine novel, a genre inspired by eroticism and anti-establishmentarianism, that effectively ended with the French Revolution.

Multilingualism and Mother Tongue in Medieval French, Occitan, and Catalan Narratives Sep 29 2019 The Occitan literary tradition of the later Middle Ages is a marginal and hybrid phenomenon, caught between the preeminence of French courtly romance and the emergence of Catalan literary prose. In this book, Catherine Léglu brings together, for the first time in English, prose and verse texts that are composed in Occitan, French, and Catalan—sometimes in a mixture of two of these languages. This book challenges the centrality of "canonical" texts and draws attention to the marginal, the complex, and the hybrid. It explores the varied ways in which literary works in the vernacular composed between the twelfth and fifteenth centuries narrate multilingualism and its apparent opponent, the mother tongue. Léglu argues that the mother tongue remains a fantasy, condemned to alienation from linguistic practices that were, by definition, multilingual. As most of the texts studied in this book are works of courtly literature, these linguistic encounters are often narrated indirectly, through literary motifs of love, rape, incest, disguise, and travel.

The Politics of Design in French Colonial Urbanism Jul 08 2020 Politics and culture are at once semi-autonomous and intertwined. Nowhere is this more revealingly illustrated than in urban design, a field that encompasses architecture and social life, traditions and modernization. Here aesthetic goals and political intentions meet, sometimes in collaboration, sometimes in conflict. Here the formal qualities of art confront the complexities of history. When urban design policies are implemented, they reveal underlying aesthetic, cultural, and political dilemmas with startling clarity. Gwendolyn Wright focuses on three French colonies—Indochina, Morocco, and Madagascar—that were the most discussed, most often photographed, and most admired showpieces of the French empire in the early twentieth century. She explores how urban policy and design fit into the French colonial policy of "association," a strategy that accepted, even encouraged, cultural differences while it promoted modern urban improvements that would foster economic development for Western investors. Wright shows how these colonial cities evolved, tracing the distinctive nature of each locale under French imperialism. She also relates these cities to the larger category of French architecture and urbanism, showing how consistently the French tried to resolve certain stylistic and policy problems they faced at home and abroad. With the advice of architects and sociologists, art historians and geographers, colonial administrators sought to exert greater control over such matters as family life and working conditions, industrial growth and cultural memory. The issues Wright confronts—the potent implications of traditional norms, cultural continuity, modernization, and radical urban experiments—still challenge us today.

Thinking Through French Philosophy Oct 30 2019 "... no other book undertakes to relate all these French philosophers to each other the way that [Lawlor] does, brilliantly." —François Raffoul For many, Jacques Derrida, Michel Foucault, and Gilles Deleuze represent one of the greatest movements in French philosophy. But these philosophers and their works did not materialize without a philosophical heritage. In *Thinking through French Philosophy*, Leonard Lawlor shows how the work of Maurice Merleau-Ponty formed an important current in sustaining the development of structuralism and post-structuralism. Seeking the "point of diffraction," or the specific ideas and concepts that link Derrida, Foucault, and Deleuze, Lawlor discovers differences and convergences in these thinkers who worked the same terrain. Major themes include metaphysics,

archaeology, language and documentation, expression and interrogation, and the very experience of thinking. Lawlor's focus on the experience of the question brings out critical differences in immanence and transcendence. This illuminating and provocative book brings new vitality to debates on contemporary French philosophy.

The French in the United States Mar 04 2020 Contemporary French immigrants have a high degree of integration into American society in terms of socio-demographic features and behavior patterns. While the foreign-born generation maintains a French identity beneath the surface, acculturation seems inevitable in later generations, due to a variety of social and attitudinal factors. Lindenfeld examines these factors, shedding light on a population that has, until now, remained fairly invisible.

French Gay Modernism Dec 01 2019 The first four decades of the twentieth century saw male homosexuality appear in French literature with increasing frequency and boldness. Departing from earlier, more muted presentations, André Gide, Marcel Proust, Jean Cocteau, René Crevel, Francis Carco, and a host of less-famous writers, all created overtly gay characters are gave them increasingly numerous and significant roles. Far from being simply shunned or marginalized, a number of these works were instead accepted as canonical. Lawrence Schehr's *French Gay Modernism* is the only study devoted to the analyzing these representations of male homosexuality in early twentieth-century French literature. Schehr explains how earlier representations of homosexuality, encoded rather than conspicuous, served as a basis for later writers to treat homosexual behavior as sets of relationships rather than as secrets or scandals. The prominence of authors such as Proust and Gide also helped other writers take up homosexual relationships in their work, often by adopting the same representational strategies. Schehr doesn't limit his study to high literary culture, however. He devotes considerable attention to popular writers whose homosexual characters encounter contempt, scorn, and worse and whose portrayals of homosexual couples and society were at once more open and more at risk.

2022 Anyone can cook in the French manner anywhere, wrote Mesdames Beck, Bertholle, and Child, with the right instruction. And here is the book that, for forty years, has been teaching Americans how. *Mastering the Art of French Cooking* is for both seasoned cooks and beginners who love good food and long to reproduce at home the savory delights of the classic cuisine, from the historic Gallic masterpieces to the seemingly artless perfection of a dish of spring-green peas. This beautiful book, with more than one hundred instructive illustrations, is revolutionary in its approach because: It leads the cook infallibly from the buying and handling of raw ingredients, through each essential step of a recipe, to the final creation of a delicate confection. It breaks down the classic cuisine into a logical sequence of themes and variations rather than presenting an endless and diffuse catalogue of recipes; the focus is on key recipes that form the backbone of French cookery and lend themselves to an infinite number of elaborations bound to increase anyone's culinary repertoire.

French Music in the Early Sixteenth

Century Jun 06 2020 A description, reconstruction and discussion of the repertory of an exceptional musical source, the French manuscript made at Lyons c. 1520-1525 as the private collection of a music copyist. The book contains 280 compositions, sacred and secular, from the period 1450-1524 with Loyset, Compère, Alexander Agricola, Antoine de Févin, Claudin de Sermisy and Clément Janequin as the prominent composers. Besides discussing the many-faceted repertory, the book studies the circulation of music in the early sixteenth century and the relationships between popular songs and courtly chansons and between provincial music and the music of the musical centres. -- The manuscript has been in the Royal Library of Copenhagen since 1921. This is the first comprehensive study of it.

Lyrics of the French Renaissance Apr 16 2021 Renowned translator Norman R. Shapiro here presents fresh English versions of poems by three of Western literature's most gifted and prolific poets—the French Renaissance writers Clément Marot, Joachim Du Bellay, and Pierre de Ronsard. Writing in the rhymed and metered verse typical of the original French poems (which appear on facing pages), Shapiro skillfully adheres to their messages but avoids slavishly literal translations, instead offering creative and spirited equivalents. Hope Glidden's accessible introduction, along with the notes she and Shapiro provide on specific poems, will increase readers' enjoyment and illuminate the historical and linguistic issues relating to this wealth of more than 150 lyric poems. "A marvelous micro-anthology of sixteenth-century French letters. Representing the pinnacle of French Renaissance verse, the poems singled out here are sensitively interpreted in rhymed English versions. . . . There is a pleasant and inspiring craftsmanship in these interpretations."—Virginia Quarterly Review

Invisible Presence Feb 12 2021 This book looks at the representation of female characters in French comics from their first appearance in 1905. Organised into three sections, the book looks at the representation of women as main characters created by men, as secondary characters created by men, and as characters created by women. It focuses on female characters, both primary and secondary, in the francophone comic or bande dessinée, as well as the work of female bande dessinée creators more generally. Until now these characters and creators have received relatively little scholarly attention; this new book is set to change this status quo. Using feminist scholarship, especially from well-known film and literary theorists, the book asks what it means to draw women from within a phallogocentric, male-dominated paradigm, as well as how the particular medium of bande dessinée, its form as well as its history, has shaped dominant representations of women. This is the first book to study the representation of women in the French-language drawn strip. There are no other works with this specific focus, either on women in Franco-Belgian comics, or on the drawn representation of women by men. This is a very useful addition to both general discussions of French-language comics, and to discussions of women's comics, which are focused on comics by women only. As it is written in English, and due to the popularity of comic art in Britain and the United States, this book will primarily appeal to an Anglo-American market. However, the cultural and gender studies approach this text employs (theoretical frameworks still not widely seen in non-Anglophone studies of the bande dessinée) will ensure that the text is also of interest to a Franco-Belgian audience. With a focus on an art-form which also inspires a lot of public (non-academic) enthusiasm, it will also appeal to fans of the bande dessinée (or wider comic art medium) who are interested in the representation of women in comic art, and to comics scholars on a broad scale.
