Laundry Jan 20 2022 For Cheryl Mendelson, laundering is the best part of housekeeping. It's full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundering preserves things you love and protects your pocketbook. It doesn't take much time or effort. What it takes is knowledge, and Laundry is the comprehensive, entertaining, and inspiring book on the art of laundering. Culled from the bestselling Home Comforts, with revised and updated information and a new introduction, Laundry is an indispensable guide to caring for all the cloth in one's home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, Laundry celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. Laundry combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

Ship Servicemen's Handbook Mar 30 2020 This text is a rate training manual designed to provide enlisted men of the Ship's Serviceman rating with basic information concerning the various ship's service specialties. The text is divided into four parts. Part 1 discusses areas common to the administration of all ship's service activities. The remaining sections are divided into the specialties within the Ship's Serviceman rating: Part 2, Laundryman; Part 3, Tailor; and Part 4, Barber. Each part contains sections which deal with the operation and management of the particular service activity and its basic processes and procedures, including equipment operation and routine maintenance. A subject index is included.

GRIHA Version 2019: The Sustainable Habitat Handbook (6 Volume Set) Jun 13 2021 GRIHA V 2019 is the 5th updated version of the GRIHA Rating system which addresses relevant, present-day concerns of the green building fraternity by encapsulating concepts such as water performance index, life cycle cost analysis, life cycle analysis, liveability index, etc. It captures social aspects of sustainability and aids the design of healthy and comfortable habitats. This set of GRIHA manuals provides a detailed understanding of the GRIHA Rating system, its underlying criteria, rating process, strategies for compliance, and the documentation and evaluation procedure. It serves as a handbook for multiple stakeholders like (architects, service engineers, landscape designers, project managers, and contractors) involved in the design and construction of sustainable buildings.

Salient features The following are the salient features of the new version of GRIHA rating: · Indigenous rating system · Adoption of holistic approach towards sustainability · Process driven and performance oriented · Integrated team approach

Manual for the Mg Midget Supercharged Apr 11 2021 Reprint of the original instruction manual (1936).

LEED® for Homes-- Pilot Study Feb 27 2020 Army participation in the LEED(registered name) for Homes Pilot Program is intended to facilitate preparations and transition from SPiRiT to LEED for Homes as soon as it is ready for adoption. The pilot program will coincide with U.S. Green Building Council (USGBC) development of the LEED for Homes evaluation tool. The Office of the Assistant Chief of Staff (Installation Management) Housing Division has overall responsibility for the transition and has selected Norfolk District, Center of Standardization for Family Housing to facilitate and coordinate participation in the LEED for Homes Pilot Program. A team consisting of

Army personnel experienced in Army Family Housing (AFH) and/or sustainability conducted site visits to AFH at Fort Lee, VA and Fort Huachuca, AZ. Both installations have a history of successful AFH projects and current projects under construction that used SPiRiT as a sustainability rating tool. LEED for Homes was applied to each AFH project. Further, each credit was evaluated for applicability to Army projects and its ease of application using current design guidelines. Where appropriate, feedback was provided to the USGBC regarding issues, concerns, or clarifications on particular credits. The team also defined several Innovation and Design credits that could universally apply to AFH projects.

Writing and Designing Manuals and Warnings 4e May 12 2021 Twenty-five years ago, how many people were thinking about the internet on a daily basis? Now you can find everything, including technical and instruction manuals, online. But some things never change. Users still need instructions and warnings to guide them in the safe and proper use of products. Good design, clear instructions and warnings, place

Leica Lens Compendium Jul 02 2020 8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Singer Sewing Book Nov 06 2020 This early work is fascinating read for sewing enthusiasts and contains much information that is useful and practical today. Its 240 pages are extensively illustrated with diagrams and photographs and 18 full page plates, forming a complete how-to guide to sewing. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
