Solstice Sep 30 2022 On the longest day of the year, anything can happen... Sam Delaney has all she asks from life: a job and a place of her own arranged exactly the way she likes it. The death of her older brother, and her parents' denial, have left her shaken and grateful her simple needs are being met. She's not looking for the future—today is all she needs. It's the last summer Emily Mackenzie will get to spend hanging out with friends, soaking up the sun and checking out the women on Seattle's sporting fields. Come fall, she's an assistant soccer coach with responsibilities. She's planning on making every day of summer count. When their paths cross, Emily is surprised Sam remembers her. Years ago, they played soccer on the same high school team, only Sam was the star and Emily the new kid. Their youthful camaraderie had been simple, but under the warm Seattle sun, simple is the last word that describes their feelings. In this rich story of long days and hot nights, newcomer Kate Christie follows the collision course of two women during the summer that changes their lives.

The Empowerment Manual Jul 25 2019 A Transition Town group involved in preparations for peak oil and climate change; an intentional community, founded with the highest ideals; a nonprofit dedicated to social change—millions of such voluntary groups exist around the world. These collaborative organizations have the unique potential to harness their members' ideals, passions, skills, and knowledge—if they can succeed in getting along together. The Empowerment Manual is a comprehensive manual for groups seeking to organize with shared power and bottom-up leadership to foster vision, trust, accountability, and responsibility. This desperately needed toolkit provides keys to: Understanding group dynamics Facilitating communication and collective decision-making Dealing effectively with difficult people. Drawing on four decades of experience, Starhawk shows how collaborative groups can generate the cooperation, efficacy, and commitment critical to success. Her extensive exploration of group process is woven together with the story of RootBound—a fictional ecovillage mired in conflict—and rounded out with a series of real-life case studies. The included exercises and facilitator toolbox show how to establish the necessary structures, ground rules, and healthy norms. The Empowerment Manual is required reading for anyone who wants to help their group avoid disagreement and disillusionment and become a wellspring of creativity and innovation. Starhawk is the author of eleven previous books including the award-winning Webs of Power . A highly influential voice for global justice and the environment, she is deeply committed to bringing the creative power of spirituality to political activism.

Orbital Mechanics for Engineering Students Apr 01 2020 Orbital Mechanics for Engineering Students, Second Edition, provides an introduction to the basic concepts of space mechanics. These include vector kinematics in three dimensions; Newton ' s laws of motion and gravitation; relative motion; the vector-based solution of the classical two-body problem; derivation of Kepler ' s equations; orbits in three dimensions; preliminary orbit determination; and orbital maneuvers. The book also covers relative motion and the two-impulse rendezvous problem; interplanetary mission design using patched conics; rigid-body dynamics used to characterize the attitude of a space vehicle; satellite attitude dynamics; and the characteristics and design of multi-stage launch vehicles. Each chapter begins with an outline of key concepts and concludes with problems that are based on the material covered. This text is written for undergraduates who are studying orbital mechanics for the first time and have completed courses in physics, dynamics, and mathematics, including differential equations and applied linear algebra. Graduate students, researchers, and experienced practitioners will also find useful review materials in the book. NEW: Reorganized and improved discussions of coordinate systems, new discussion on perturbations and quaternions NEW: Increased coverage of attitude dynamics, including

new Matlab algorithms and examples in chapter 10 New examples and homework problems

Lemon-Aid Used Cars and Trucks 2012-2013 Jun 03 2020 Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Boldly Going on Your Inner Voyage Dec 10 2020 Whether you're a devoted fan of the Star Trek(R) TV series and films, or you've never watched a single episode, you'll find a treasury of inspiration and insight on these pages. After all, the voyages of the Starship Enterprise - along with Star Trek's(R) other sequels and prequels - were never really about the exploration of space. They were about boldly going into ourselves. About investigating the deeper dimensions that give our lives meaning and

purpose, that inspire us to become the best crewmen and women we can be right here on Spaceship Earth. Boldly Going on Your Inner Voyage is the perfect companion for your ongoing explorations. Written in the form of the "daily meditationals" familiar to both seekers of spiritual wisdom and readers in recovery (aren't we all?), the 438 readings all begin with a quotation from one of Star Trek's(R) repertoire of fascinating characters. The words of such icons as Captain Kirk, Picard and Janeway, Counselor Troi and Spock - and now Star Trek: Discovery's Michael Burnham - are scattered throughout the Manual, along with those of lesser-known luminaries like Neelix, Natira and Cadet Tilly. Each quote sparks an insightful reflection on themes ranging from Acceptance to Transformation, from Forgiveness to Serving Others. A brief affirmation follows, encouraging the reader to continue thinking about-and most importantly, acting on - the issues raised in the meditation. WHAT'S NEW in this 4th print edition (in addition to its larger format), is an expanded Appendix of meditations that were deleted over the course of three previous editions in order to make room for dozens of new entries from the latest big-screen and small-screen incarnations of Star Trek(R) - including the opening season of Star Trek: Discovery. Also included are expanded Indices that allow readers to easily locate all the quotes from any single Star Trek(R) character, or to find all the meditations related to any single topic from the 200-plus listed. It doesn't matter whether you start your explorations on day 01.01 (Earth's January 1st), or Arroway's mid-year solstice (A-36) - or whatever date you start reading the Manual. For that matter, you may want to read through all the meditations in only a week or two as you would any other book. Just pick a random page or an inspiring quote, and let your Inner Voyage begin!
