Communicating Science Effectively Feb 24 2020 Science and technology are embedded in virtually every aspect of modern life. As a result, people face an increasing need to integrate information from science with their personal values and other considerations as they make important life decisions about medical care, the safety of foods, what to do about climate change, and many other issues. Communicating science effectively, however, is a complex task and an acquired skill. Moreover, the approaches to communicating science that will be most effective for specific audiences and circumstances are not obvious. Fortunately, there is an expanding science base from diverse disciplines that can support science communicators in making these determinations. Communicating Science Effectively offers a research agenda for science communicators and researchers seeking to apply this research and fill gaps in knowledge about how to communicate effectively about science, focusing in particular on issues that are contentious in the public sphere. To inform this research agenda, this publication identifies important influences â€ " psychological, economic, political, social, cultural, and media-related â€ " on how science related to such issues is understood, perceived, and used.

Communication Problems in the Family Business Jun 10 2021 Essay from the year 2010 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: A (1,3), Pfeiffer University, Charlotte Campus, course: Business Communication, language: English, abstract: For family businesses, effective communication is an even more integral factor for successful business operations due to the peculiarity that personal (family) emotions frequently interfere with business decisions. Family businesses often have to struggle with conflicts among members of the organization, low managerial abilities, interfered daily business activities, and customer relationships that suffer from the lack of structure and poor communication. The research provided in this paper shows that small family businesses face similar problems, whereas effective communication is the most frequently mentioned issue regarding the need for improvement in family businesses. This paper considers the importance of common expectations and values to guide family members, thereby eliminating areas for dispute. Other important findings are that leadership training and structured responsibilities (clear work roles) make the management more congruent and improve managerial communication; well-managed employees, who have direction and know about priorities, affect business activities positively; and that a

professional appearance of the family business has a positive impact on customer relationships. The conclusion presented at the end of this document states that once the family business has successfully implemented an effective organizational and information communication scheme that includes emphasis on family values, then the business will be able to make use of the particular advantages a family business can have.

Building Communication Capacity to Counter Infectious Disease Threats Dec 04 2020 Building communication capacity is a critical piece of preparing for, detecting, and responding to infectious disease threats. The International Health Regulations (IHR) establish risk communication€ "the real-time exchange of information, advice, and opinions between experts or officials and people who face a threat to their survival, health, and economic or social well-being€ "as a core capacity that World Health Organization member states must fulfill to strengthen the fight against these threats. Despite global recognition of the importance of complying with IHR, 67 percent of signatory countries report themselves as not compliant. By investing in communication capacity, public health and government officials and civil society organizations facing health crises would be prepared to provide advice, information, and reassurance to the public as well as to rapidly develop messages and community engagement activities that are coordinated and take into account social and behavioral dynamics among all sectors. To learn about current national and international efforts to develop the capacity to communicate effectively during times of infectious disease outbreaks, and to explore gaps in the research agenda that may help address communication needs to advance the field, the Forum on Microbial Threats of the National Academies of Sciences, Engineering, and Medicine convened a 1.5 day workshop on December 13 and 14, 2016, in Washington, DC. Participants reviewed progress and needs in strengthening communication capacity for dealing with infectious disease threats for both outbreaks and routine challenges in the United States and abroad. This publication summarizes the presentations and discussions from the workshop.

Nigerian Languages, Literatures, Culture and Reforms Jul 19 2019 The papers in this volume were selected from the Silver Jubilee edition of the Annual Conference of the Linguistic Association of Nigerian (LAN) which was held at the Nigerian Educational Research and Development Council (NERDC), Abuja, Nigeria. The Silver Jubilee edition is dedicated to the father of Nigerian Linguistics, Professor Emeritus Ayo Bamgbose. Professor Emeritus Bamgbose was the first indigenous Professor of Linguistics in Nigeria, and the first black African to teach linguistics in any known university south of the Sahara. He was there from the very beginning, and together with co-operation of people such as the late Professor Kay Williamson, he nurtured Nigerian linguistics. He is not just a foremost Nigerian linguist, but also a most famous, respected, celebrated, distinguished, and cherished African linguist of all times. To be candid, Nigerian linguistics is synonymous with Professor Emeritus Bamgbose. In 58 well-written chapters by experts in their fields, the book covers aspects of Nigerian languages, linguistics, literatures and culture. The papers have not been categorized into sections; rather they flow, hence there is some overlapping in the arrangement. The book is an essential resource for all who are interested to learn about current trends in the study of languages, linguistics and related subject-matters in Nigeria.
