*Let My People Go* Jul 25 2019 "Come join me as I take you back to Charleston, South Carolina, to my father's forge in the early 1800's. Sit with me on the woodpile as he tells a tale of faith, hope, or love." In this extraordinary collection, Charlotte Jefferies and her father Price, a former slave, introduce us to twelve best loved Bible tales, from Genesis to Daniel, and reveal their significance in the lives of African Americans--and indeed of all oppressed peoples. When Charlotte wants to understand the cruel injustices of her time, she turns to her father. Does the powerful slaveholder, Mr. Sam Riley, who seems to own all that surrounds them, also own the sun and moon? she wonders. Price's answer is to tell the story of Creation. How can God allow an evil like slavery to exist? she asks. Price responds by telling the story of the Hebrews' Exodus -- and shows Charlotte that someday their people, too, will be free. With exquisite clarity, Patricia and Fredrick McKissack and James Ransome -- a Newbery Honor winner and all Coretta Scott King Award winners --

brilliantly illuminate the parallels between the stories of the Jews and African-American history. *Let My People Go* is a triumphant celebration of both the human spirit and the enduring power of story as a source of strength. Our hope is that this book will be like a lighthouse that can guide young readers through good times and bad...The ideas that these ancient stories hold are not for one people, at one time, in one place. They are for all of us, for all times, everywhere. --from the Authors' Note to *Let My People Go*

**Last Water on the Devil's Highway** Sep 30 2022 *The Devil's Highway—El Camino del Diablo*—crosses hundreds of miles and thousands of years of Arizona and Southwest history. This heritage trail follows a torturous route along the U.S. Mexico border through a lonely landscape of cactus, desert flats, drifting sand dunes, ancient lava flows, and searing summer heat. The most famous waterhole along the way is Tinajas Altas, or High Tanks, a series of natural rock basins that are among the few reliable sources of water in this notoriously parched region. Now an expert cast of authors describes, narrates, and explains the human and natural history of this special place in a thorough and readable account. Addressing the latest archaeological and historical findings, they reveal why Tinajas Altas was so important and how it related to other waterholes in the arid borderlands. Readers can feel like pioneers, following in the footsteps of early Native Americans, Spanish priests and soldiers, gold seekers and borderland explorers, tourists, and scholars. Combining authoritative writing with a rich array of more than 180 illustrations and maps as well as detailed appendixes providing up-to-date information on the wildlife and plants that live in the area, *Last Water on the Devil's Highway* allows readers to uncover the secrets of this fascinating place, revealing why it still attracts intrepid tourists and campers today.

**The Last Great Getaway of the Water Balloon Boys** Dec 22 2021 While bullies are beating up Charlie, his ex-bestfriend Jake pulls up in a bright red '67 Mustang—the principal's car—and tells him to get in. It's a choice between a broken nose and the risk of a lifetime, and Charlie, a self-described straight-A student and grade-A geek, decides to take a chance. Now the two teens are on a mission to find Charlie's absent father and avoid arrest for car theft. An eventful journey puts Charlie in the middle of a court case 1,000 miles from home. And in the courtroom, he will have to make the ultimate choice of his life.

*The Last Dogs: Dark Waters* Jun 27 2022 When canine heroes Max, Rocky, and Gizmo encounter a lavish riverboat moored close to shore, they're wary of what they might find on board. But as they're welcomed by a friendly community of dogs, the trio discover that there's more to their new world than they expected. These dogs have seen humans -- who Max, Rocky, and Gizmo thought had disappeared without a trace. The brave companions meet new friends and encounter old enemies in their search for their people, traveling to places they never imagined -- from a high-speed monorail to a zoo filled with exotic animals. Max, Rocky, and Gizmo uncover secrets that promise to change their lives forever as they draw closer to figuring out why the humans left and being reunited with their families. *The Last Dogs: Dark Waters* is the second book in a thrilling series about three friends on a journey to find their people -- and bring them home.

*Oil or Water . . . Only One Is Good To The Last Drop* Jan 23 2022 In 1947, at the age of nine I was instructed to help my older brothers "drain the corn rows." Aware then that water was precious in Nebraska, I obeyed; but the question stayed with me. . . My first paying job at the age of 12 was a two week assignment of weeding 250 seedling pines. . . for \$1.00 (total pay). I didn't know then that I would become an earnest advocate for trees. Fast forward through the years of study and work, and this advance postscript to my book comes to mind. . . This book proposes to reduce the occurrence of El Nino to about once in 15 years. I believe it is possible to all but eliminate late season devastating hurricanes. With those two beliefs, I endeavor to impel the diligent into this book. I believe I followed faithfully where scholars led, and only drew necessary and fitting conclusions. . . And finally, the belief that "we should successfully harness the mighty geothermal power of Yellowstone before the tragedy of eruption." With this understanding of farm, family, and the future necessity of clean water, JOHN E. HORNER has endeavored to acknowledge some of the current problems with our lack of respect for clean and bountiful water, and offer solutions to the present and future water crisis.

*Last Out From Roaring Water Bay* Aug 30 2022 Shackleton Speed steals the reconnaissance camera from the remains of a WWII Spitfire he had unearthed with his metal detector. Now two friends are dead and their killers were after him. The connection is the developed photographs from the old celluloid film. They show the I-52, a Japanese submarine, somewhere off the British coast when history records the I-52 was sunk in the Atlantic while carrying gold to the Third Reich. Speed sets out for revenge and to expose those responsible. The trail leads him to Southern Ireland and Roaring Water Bay where he uncovers the hidden horrors of WWII.

**The Last Water-hole** Nov 20 2021 When ex-outlaw Bobbie Lee sees a rider approaching Beattie's Halt he know it means trouble. Hours later his innocent son is gunned down in the saloon and three more hard-bitten strangers have joined the gunman called Van Gelderen. But who are they? Two days later a second young man dies and the strangers leave town. But murder cannot go unpunished. Bobbie Lee, Will Blunt and his daughter, Cassie, pick up the trail outside Beattie's Halt. In the scorching heat of the desert old feuds are settled in a six-gun blaze.

Confronting the Nation's Water Problems Mar 13 2021 In order to confront the increasingly severe water problems faced by all parts of the country, the United States needs to make a new commitment to research on water resources. A new mechanism is needed to coordinate water research currently fragmented among nearly 20 federal agencies. Given the competition for water among farmers, communities, aquatic ecosystems and other users-as well as emerging challenges such as climate change and the threat of waterborne diseases-*Confronting the Nation's Water Problems* concludes that an additional \$70 million in federal funding should go annually to water research. Funding should go specifically to the areas of water demand and use, water supply augmentation, and other institutional research topics. The book notes that overall federal funding for water research has been stagnant in real terms for the past 30 years and that the portion dedicated to research on water use and social science topics has declined considerably.

*The Last Summer of the Water Strider* Feb 21 2022 A captivating 1970s-set novel that is both a coming-of-age and an End-of-an-Age story: about love, the lure of idealism, innocence and decadence. Adam is seventeen, the only son of straitlaced, cautious Ray and Evie. Life is slow, unbearably routine, in their low-rise council block in the London suburbs, until tragedy strikes, leaving Adam unhinged with grief. Rejecting any consolation at home, Adam is sent to spend the long hot 1970s summer with Ray's unlikely brother, the enigmatic Dr Henry Templeton - guru and spiritual teacher. With few possessions and even fewer ambitions for his future, Adam arrives at his uncle's houseboat in the West Country. Henry is charismatic, unfamiliar, full of eccentric ideas and projects. As the summer unspools, Adam meets first Strawberry, an ethereal American girl living in a shack in the woods; and then Ashley, whose father, the local vicar, is locked in conflict with Henry and his circle's 'alternative' way of life. While Adam falls under the spell of pretty, knowing Ashley, Henry, set on pursuing his personal vision unbendingly, seals the shocking fate of Strawberry, Adam and ultimately himself. 'I was very moved by *The Last Summer of the Water Strider*, which is both exquisitely specific to time and place and universal in its examination of humanity, grief and the bizarre prisons that people build for themselves - and one another. Funny, fascinating, mysterious and provocative' Sadie Jones, author of *The Outcast* 'Great storytelling and superb characterisation. Very few writers can evoke quintessential Englishness in its myriad forms like Tim Lott. I loved it' Irvine Welsh
