More Than

Guided Reading

Feb 19 2022 Is there too much emphasis on guided reading in primary classrooms? It's a question that many educators, like kindergarten teacher and literacy coach Cathy Mere, are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day.

develop as readers, to learn to choose books, to find favorite genres and authors, and to talk about their reading. In *More Than Guided Reading*, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning?not only providing more time for students to discover their reading lives, but also shaping instruction to meet the needs of the diverse learners in her classroom. By changing the structure of the day, Cathy found she was better able to adjust the support she was

allowing time for whole-class focus lessons, conferences, and opportunities to share ideas, as well as reading from self-selected texts using the strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the centerpiece of the workshop. It is often tied to a read-aloud and connected to learning from the previous day, helping to build skills, extend thinking, and develop independence over time. This thoroughly practical text offers numerous sample lessons, questions for conferences, and ideas for revamping guided

reading groups. It will help teachers tweak the mix of instructional components in their reading workshops, and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum.

Being Frank Jul 20 2019 Frank follows the motto, "Honesty is the best policy." He tells the truth, the whole truth, and nothing but the truth. Frank never lies to his schoolmates, he always tells the truth to adults, and he's always honest with police officers. The balancing act of finding tact, that fine line between telling the truth and telling too much

truth, is the main theme of this story, and it's very funny—although not necessarily to his friend Dotti whose freckles remind Frank of the Big Dipper, or to the teacher who hears that her breath smells like onions, or to the principal who is told that his toupee looks like a weasel. No one is quite as impressed with Frank's honesty as he thinks they should be. He is sweet and straightforward, and, well, very frank, but with everyone annoyed at him, Frank is now honestly unhappy. He decides to visit his confidante and pal, Grandpa Ernest, who has a history of

frankness himself. With a few lessons from Grandpa, Frank begins to understand that the truth is important, but so is not being hurtful. With amusing characters and expressive artwork, this story tells the powerful message of finding the good in everything—a lesson that sends compassion and understanding to take the place of rudeness in the complex concept of truth.
