Rethinking Recess Aug 09 2020 In Rethinking Recess, sociologist Rebecca A. London argues that recess has been overlooked as an essential part of the elementary school experience, with major implications for how well schools serve all students equitably and responsibly. Given its potential to support students' social and emotional learning and physical activity, London says, recess should be designed intentionally, with attention to safety, health, and engagement. The book shows how school leaders and other educators--even those with budget and space constraints--can make the most of recess time by using a variety of proven strategies, and also provides examples of schools that have put these strategies to use. Rethinking Recess highlights the need for equitable access to recess and supplies alternatives to the common practice of withholding recess for misbehavior or as a punishment, along with other policy recommendations, assessment tools, and resources that practitioners can use to redesign recess. When unstructured or poorly planned, recess can be a major source of disciplinary incidents and office referrals, eating into instructional time, adding stress, and affecting perceptions of school climate for students and staff, among other negative outcomes. Conversely, taking organizational steps to create a well-designed recess can engage students, improve school climate, build valuable social and emotional skills, reduce behavioral incidents, and promote healthy lifestyles. Meticulously researched and filled with practical and often easy-to-implement changes for recess policies and practice, this book provides a critical resource for school leaders and others looking to make every aspect of school a positive one for students.

Event Arguments: Foundations and Applications Feb 12 2021 Since entering the stage, Davidsonian event arguments have taken on a central role in linguistic theorizing. Recent years have seen a continuous extension of possible applications for them, not only in semantics but also in syntax. At the same time questions concerning the ontological status of events have received renewed attention. This collection of articles provides new evidence for the virtually ubiquitous presence of event arguments in linguistic structure and sheds new light on their nature. The volume is organized into four sections: Events - states - causation; Event nominals; Events in composition; Measuring events.

The Key to Rebecca Dec 01 2019 Ken Follett's The Key to Rebecca took readers and critics by storm when first published forty years ago. Today, it remains one of the best espionage novels ever written. A brilliant and ruthless Nazi master agent is on the loose in Cairo. His mission is to send Rommel's advancing army the secrets that will unlock the city's doors. In all of Cairo, only two people can stop him. One is a down-on-his-luck English officer no one will listen to. The other is a vulnerable young Jewish girl. . . .

Teacup Mar 16 2021 A stunning picture book that addresses life's big journeys with hope, beauty, and reassurance School Library Journal [STARRED REVIEW!] "[A] moving, allegorical tale... inspiring reflection and empathy" Kirkus Reviews [STARRED REVIEW!] "A potent discussion starter... Enchanting, beautiful, and full of hope. " Booklist [STARRED REVIEW!] "A lyrical tale of leaving home and finding a new one.Thought-provoking and arrestingly beautiful." A boy must leave his home and find another. He brings with him a teacup full of earth from the place where he grew up, and sets off to sea. Some days, the journey is peaceful, and the skies are cloudless and bright. Some days, storms threaten to overturn his boat. And some days, the smallest amount of hope grows into something glorious. At last, the boy finds land, but it doesn't feel complete . . . until another traveler joins him, bearing the seed to build a new home. With lyrical text and gorgeous artwork, this poignant picture book is perfect for discussing all of life's toughest challenges--a big move, a divorce, long-distance separation, or even the current refugee crisis--in a way that's reassuring and inspiring for children and adults alike.

Focus on Elementary Astronomy Student Textbook 3rd Edition (Softcover) Apr 28 2022 Introduces young students to the scientific discipline of astronomy, including the history of astronomy, the telescope, constellations, the Moon and Sun, planets, our solar system, neighboring stars, Milky Way Galaxy, other galaxies, nebulae, comets, asteroids, other objects in space, and more. 12 full-color chapters. 112 pages. Grades K-4.

Elementary Composition Sep 29 2019 DigiCat Publishing presents to you this special edition of "Elementary Composition" by Dorothy Canfield Fisher, George R. Carpenter. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Developing an All-School Model for Elementary Integrative Music Learning Feb 24 2022 The purpose of this study was to investigate the potential for increasing informal music-making in elementary school culture, and create a model of such music-making. Precedence for this model can be found in the literature of ethnomusicology, educational psychology and learning theory, multicultural music education, and cultural anthropology. Literature from four distinct traditions and contexts of music-making in integrative sociocultural contexts--sub-Saharan African ngoma, and Community Music as manifested in New Orleans second lines, old-time music and dance, and summer camp music-making--was parsed with a philosophical lens to determine and assess possible areas of intersection between these four participatory cultures and

North American public school culture. Each of these five areas was examined through a comprehensive review of literature to define their salient characteristics. These characteristics were sorted to determine commonalities between areas, and the zones of intersection became the basis for a speculative model of integrative music learning, featuring the inclusion of musical opportunities and interludes throughout the school day, thus taking school music beyond the confines of the music room. Instruction in music classes would still continue, enhanced in this model by supplemental learning opportunities inspired by the informal learning of traditional world musics, the participatory practice of New Orleans second line parades, old-time music and dance, and summer camp music culture. This model of integrative learning is also informed by current educational best practices such as child-centered learning, peer tutoring, experiential learning, and multicultural perspectives. It acknowledges the diversity of traditions consulted, while aiming for the unity in their seemingly disparate disciplines. Five universal characteristics were uncovered in the search for areas of intersection between North American elementary school culture, child culture, ngoma music-making, and Community Music-style music-making in New Orleans, old-time music and dance, and summer camp contexts: (a) Song; (b) play; (c) informal learning, as evidenced by oral tradition, peer tutoring, self-learning; (d) kinesthetic learning; and (e) contextualized learning, as evidenced in the sociocultural uses of music and situated learning. This model strives for the enactment of school music as a vital and integral part of daily school culture.

Division Made Easy Jul 08 2020 Explains the mathematical process of division in simple terms, providing examples of the use of division in everyday life, as well as methods of doing long division, using powers of ten, and solving word problems.

Unfinished Stories for Facilitating Decision Making in the Elementary Classroom Oct 30 2019 Unfinished stories to aid in decision making.

Elementary Literacy Lessons Nov 11 2020 Innovative and practical, this text helps prepare teachers to support the literacy learning needs of all children in grades K-6, including academically, linguistically, and culturally diverse students. It features original teaching cases written by preservice teachers enrolled in field-based reading/language arts methods courses, accompanied by commentaries written by experienced teacher educators and skilled classroom teachers. High-interest content and a reader-friendly format encourage critical and reflective thinking about topics important to effective literacy instruction. By promoting reflection about case issues, the text helps prepare future teachers to respond to teaching narratives presented on the practical applications section of the PRAXIS II, an examination required in most states for teacher licensure. The authentic cases candidly and poignantly describe preservice teachers' plans, problems, hopes, disappointments, dilemmas, and reflective thinking as they address the multilayered complexities and ambiguities associated with learning to teach reading and language arts in elementary classrooms. These teaching stories reveal glimpses of literacy instruction and allow us to enter real classrooms and experience the wide varieties of situations that reading/language arts teachers encounter daily. Although the cases are grouped according to specific dimensions of literacy theory and pedagogy, just as in real classrooms, other issues are woven through each case as well. The commentaries provide scholarly, and sometimes contrasting, perspectives and approaches through which readers might consider the issues presented in the cases. The commentaries represent only particular perspectives, but readers are encouraged to explore and consider as many perspectives and issues as possible regarding each case. Each chapter includes helpful pedagogical features: \* New or critical concepts and terms listed at the beginning of each chapter alert readers to what might be unfamiliar vocabulary. \* Applications and Reflections pages help readers take an active part in analyzing, documenting, and talking about the particular issues portrayed in the case narratives. Using the questions on these pages, the cases and accompanying commentaries can be read and discussed as a whole class activity, in small collaborative groups, or by individuals. The questions can also be used by readers to guide their own case writing initiatives. \* Margin References direct readers to correlated readings for the strategies and parallel concepts mentioned in the cases and commentaries. Suggested readings can be discussed within the format of literacy study groups. \* Annotated Bibliographies at the end of each chapter help readers construct more in-depth knowledge for the instructional strategies and activities discussed in the teaching cases. The cases, commentaries, and pedagogical features in this distinctive text provide rich opportunities for readers to discover what they need to know and how they need to think in order to teach reading and language arts effectively and successfully.

The Kingdom of Childhood Aug 28 2019 Thrown together to organize a fund-raiser for their private school, teacher Judy McFarland and student Zach Patterson, bonded by loneliness, embark on an affair that corrupts them both as the lines between adult and child are blurred.

Making Water Clean Jun 06 2020 Describes how cities treat freshwater so that it is safe to drink. Includes an activity.

Social Justice, the Common Core, and Closing the Instructional Gap Oct 23 2021 There is little doubt that the Common Core State Standards (CCSS) are a controversial entity. They are provocative for the way in which they have been developed, for the ways they are being implemented and evaluated, for their content, and for their failure to explicitly consider the needs, interests, and histories of diverse populations. While the CCSS continue to be problematized by critics around the country—including the editors of this volume—it is evident our nation is moving toward (some would argue we have arrived at) a national set of standards and/or a national curriculum. This text will be an important volume for multiple audiences, in large part because it will bring together critical perspectives on the CCSS and the notion of national standards/curricula. It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits, while presenting practical examples of social justice-oriented, CCSS-focused curricula that empower diverse learners and their teachers. Social Justice, the Common Core, and Closing the Instructional Gap will consist of chapters by classroom teachers and university scholars who portray honest, engaging, first-person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards. These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards? and test-driven environments. They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world.
