COST ACCOUNTING Feb 23 2022 This well-established and widely adopted textbook, now in its 14th edition, continues to provide an in-depth and insightful analysis of the modern theories and practices of Cost Accounting. That the book has gone into its 14th edition and several reprints is a testimony of its wide acceptance by the students, academics and professionals. Primarily intended for postgraduate and undergraduate students of Commerce and Management, the book will be of immense benefit to the students pursuing professional courses offered by the Institute of Chartered Accountants of India (ICAI), Institute of Cost Accountants of India (ICAI), Institute of Company Secretaries of India (ICSI), and those pursuing the Chartered Financial Analyst (CFA) course. Now, in its 14th edition, the book has been suitably revised meeting the latest syllabi requirement of various courses. The chapter on "Strategic Cost Management" has been updated to make it indispensable to modern management to enhance the competitive advantage of the firm. Besides, many chapters have been overhauled and updated, especially the chapters covering basic concepts and terms, classification of costs and cost sheet, activity based costing, marginal costing, relevant cost analysis and management decisions, capital budgeting decisions, and cost audit. The book also includes some of the cost standards set by ICAI, a wide array of illustrations, worked-out examples, and practice exercises. Besides, a large number of MCQs are given online for the students to practice and self evaluation. MCQs are critical in proper understanding and practice of theories and concepts. Also, CIMA Official Terminology is provided online to keep students and professionals abreast of relevant terms used in today's business environment. Criminality Exposed Colombo Hilton Hotel Construction Perversely `Covered-Up' Oct 22 2021 In this voluminous Book in a series by the Author on corruption, fraud and economic crime, with indepth analysis, transcending forensic accounting, he brilliantly reveals, with incisive diametrics, irrefutable evidence of criminality, in the construction of Colombo Hilton Hotel by Mitsui & Taisei, Japan, with Architects, Kanko Kikaku Sekkeisha Yozo Shibata & Associates successful civil prosecution by Author led to Japanese writing-off US \$ 207 Mn. He establishes beyond reasonable doubt, that original Architectural Plans had been suppressed / destroyed by a staged fire, with amended Architectural Plans surreptitiously substituted being cannibalized Sheets, with incongruous elevations, whereby such Plans could not be approved. Meticulously probing into elevations on Floor Sheets and Cross-Sectional Sheets, which crucial aspect had been overlooked by professional architectural investigations, he proves the shortfall of floors, with the elevations on tampered Sheets bearing tell tale evidence of being identical, with elevations in the cross-sections of the Project Plan, upon which Hilton International formulated Profitability Forecasts, to obtain State Guarantees from Sri Lanka Government, to finance this construction, which was a major fraud perpetrated on the people, rendering such guarantees null and void. Shockingly revealed are perverse endeavours, including by Auditors, KPMG Ford, Rhodes, Thornton & Co., to cover-up this massive fraud, involving upper echelons, with socio-political / international ramifications. Appallingly, criminal investigations were significantly abandoned, on advice of Attorney General. Securities Exchange Commission colluded to cover-up, whilst Chartered Accountants Institute endeavoured to whitewash miscreants. This is a revealingly absorbing Book of real experiences of the Author, in exposing and combating, a despicable fraud on the people, which to him was a crime against humanity, and would be invaluable to investigators and prosecutors of commercial frauds and crimes, and civil society urging equal enforcement of the rule of law.

Marketing Planning in a Total Quality Environment Dec 12 2020 Marketing Planning in a Total Quality Environment is a how-to book designed for the marketing practitioner. It provides detailed information on how to prepare and implement a marketing plan based in a total quality environment. For the last twenty years, the authors, as marketing practitioners and educators, have been deeply involved in the planning processes of many corporations. This book, Marketing Planning in a Total Quality Environment, is the product of what they've learned over the years from working with these diverse corporations and their executives. The authors provide readers with each step in the total quality planning process, complete with check sheets and plan formats. After readers finish the book, they can prepare a quality-driven marketing plan that will be used and followed throughout the year--instead of becoming a shelf item. This book is for you and the many other marketing professionals who are faced with one or more of these situations: You're doing a good job, but you'd like to do even better. You're spending valuable time putting out fires. You lack time to do the things that need to be done. You're always having a hard time coordinating major marketing programs. You're faced with a major discrepancy between where you are and where you'd like to be; you've got a planning gap. You realize that you've got to offer your customers more quality if you're going to be competitive in the new market environment. You'd like to have a professional annual marketing plan--one that will be well received by management and will also keep you and your staff focused throughout the year. Because each step on how to develop a marketing plan is covered, Marketing Planning in a Total Quality Environment is ideal for presidents of smaller firms, marketing directors and planners, product managers, and planning specialists. The authors include a sample fact book which can be used to store and analyze data, planning forms which help convert data into information, and marketing plan formats which ensure that the plan will get used.

Influence of Management Accounting in Creating Sustainable Competitive Advantage in Commercial Banks Nov 22 2021 Current management accounting techniques have not been widely accepted as a means to develop a competitive advantage. The information obtained from the literature reviewed and the results from an empirical study that involved a sample of forty respondents from Equity Bank found that the modern management accounting practices provide very important skills and techniques in building competitiveness. The practices play an important role in the planning, developing, implementing and evaluating strategic competitive policies that result in a competitive advantage. The study outlines the importance of management accounting practices in providing strategies that lead to the creation of a competitive advantage in an organisation. However, the conclusions are drawn on a conceptual level and a future empirical investigation is needed to substantiate these claims further. The study also sets a foundation for more focused research into the importance of modern management accounting practices in developing a competitive advantage especially in the banking sector.
