Literacy and History in Action Jan 31 2020 This book offers a solid research and theoretical foundation for combining social studies and literacy instruction. A collaboration between a literacy scholar, two classroom teachers, and a school librarian, this volume also shows teachers how to engage middle and high school students in historical inquiry that incorporates literacy skills like reading complex texts and writing elaborated arguments. The authors present extended simulation activities that immerse students in three eras of US history: European incursions into North America, pre-Revolutionary War Colonialism, and the Civil War and Reconstruction. These simulations allow learners to experience these major periods of U.S. history while they discuss, read, and write in ways that align closely with the Common Core State Standards. The final chapter guides teachers in constructing their own classroom simulations and identifies useful resources.

The Book of Hopes Dec 12 2020 First published online to comfort, inspire and entertain children during lockdown, Katherine Rundell's collection of over 100 works from the best authors and illustrators of children's books has been read by almost half a million people. A donation from the sale of each book will go to NHS Charities Together

Teaching K-12 Transdisciplinary Literacy Feb 11 2021 Accessible and comprehensive, this text introduces a transdisciplinary framework for literacy instruction in grades K-12. This cutting-edge volume addresses the need for literacy instruction that crosses disciplines to provide students with a skillset that is not constrained or siloed, but rather knowledge that students can apply to existing and emerging fields. The text begins with a clear, theoretical understanding of literacy instruction, delves into practical aspects of select instructional practices by grade level, and expands to the creation of schoolwide Multi-Tiered Systems of Support to ensure a continuous improvement system. The authors' inviting and innovative approach walks through real-world pathways for meaningful and inclusive literacy practices at distinct grade levels and includes authentic examples that show what the successful implementation of a K-12 transdisciplinary framework looks like. Covering key topics such as MTSS, RtI, Professional Communities of Practice, national and state standards, this book supports pre-service ELA teachers, literacy coaches, reading specialists, and administrators, and is ideal for courses in literacy instruction and content area literacy.

Platinum Mathematical Literacy Jan 25 2022

Mathematical Literacy, Grade 10 Apr 15 2021 Study & Master Mathematical Literacy Grade 10 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Mathematical Literacy. The Teacher's File includes: * a weekly teaching schedule, divided into the four terms to guide the teacher on what to teach * extra project templates for teachers to choose from * solutions to all the activities in the Learner's Book.

Developing Core Literacy Proficiencies, Grade 12 May 05 2020 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about Literary Technique (Grades 9-12) Researching to Deepen Understanding Building Evidence-Based Arguments The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from "making inferences" to "reflecting critically." Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as "preparing" and "completing tasks" that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

Mathematical Literacy, Grade 11 Jul 27 2019 Study & Master Mathematical Literacy Grade 11 has been especially developed by an experienced author team according to the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Mathematical Literacy. The comprehensive Learner's Book includes: * thorough coverage of the basic skills topics to lay a sound foundation for the development of knowledge, skills and concepts in Mathematical Literacy * margin notes to assist learners with new concepts - especially Link boxes, that refer learners to the basic skills topics covered in Term 1, Unit 1-16 * ample examples with a strong visual input to connect Mathematical Literacy to everyday life.

Mathematical Literacy in the Middle and High School Grades Nov 30 2019 Using reading materials and real-life examples that capture and keep students' attention, this book helps future and current educators enhance and enlighten students' mathematics learning by incorporating a variety of texts into the math classroom and developing students' literacy skills. Math is everywhere, say the authors of this practical guide that gives busy teachers the means to enhance students' mathematics learning by incorporating a variety of texts into the day-to-day life of the math classroom. From its opening overview of the theory behind new strategies for teaching math to its practical, day-to-day, concrete assistance, the book helps teachers find and use engrossing ways to introduce math concepts through stories, developing and using hands-on activities to reinforce the concepts. Included are ready-to-use activities busy teachers can incorporate as is or adapt to fit their particular classrooms and their students' individual needs. The book draws on the experience of two diverse authors, each with their own perspectives on the topics, to give educators unique and varied solutions to the challenges of getting the concepts of mathematics across to their students. The authors communicate the theory behind teaching many varied subjects in mathematics through using literature and other reading materials as a tool, helping in-service teachers come up with lesson plans that enhance and enlighten students' mathematics learning.

Teaching Dilemmas and Solutions in Content-Area Literacy, Grades 6-12 Jun 25 2019 Middle and high school students must become proficient readers and writers to successfully meet the requirements of the secondary curricula and be adequately prepared for college, employment, and citizenship. 'Literacy Across the Curriculum' is a guide for educators who are concerned with how students experience literacy instruction across the secondary school curriculum and need strategies for raising student performance levels.

Visible Learning for Literacy, Grades K-12 Nov 10 2020 "Every student deserves a great teacher, not by chance, but by design" — Douglas Fisher, Nancy Frey, & John Hattie What if someone slipped you a piece of paper listing the literacy practices that ensure students demonstrate more than a year’s worth of learning for a year spent in school? Would you keep the paper or throw it away? We think you’d keep it. And that’s precisely why acclaimed educators Douglas Fisher, Nancy Frey, and John Hattie wrote Visible Learning for Literacy. They know teachers will want to apply Hattie’s head-turning synthesis of more than 15 years of research involving millions of students, which he used to identify the instructional routines that have the biggest impact on student learning. These practices are "visible" for teachers and students to see, because their purpose has been made clear, they are implemented at the right moment in a student’s learning, and their effect is tangible. Yes, the "aha" moments made visible by design. With their trademark clarity and command of the research, and dozens of classroom scenarios to make it all replicable, these authors apply Hattie’s research, and show you: How to use the right approach at the right time, so that you can more intentionally design classroom experiences that hit the surface, deep, and transfer phases of learning, and more expertly see when a student is ready to dive from surface to deep. Which routines are most effective at specific phases of learning, including word sorts, concept mapping, close reading, annotating, discussion, formative assessment, feedback, collaborative learning, reciprocal teaching, and many more. Why the 8 mind frames for teachers apply so well to curriculum planning and can inspire you to be a change agent in students’ lives—and part of a faculty that embraces the idea that visible teaching is a continual evaluation of one’s impact on student’s learning. "Teachers, it’s time we embrace the evidence, update our classrooms, and impact student learning in wildly positive ways," say Doug, Nancy, and John. So let’s see Visible Learning for Literacy for what it is: the book that renews our teaching and reminds us of our influence, just in time.

Adolescent Literacy Inventory, Grades 6-12 Oct 29 2019 The Adolescent Literacy Inventory (ALI) helps teachers understand students' reading as it develops. The Adolescent Literacy Inventory, Grades 6-12, is a revolutionary new assessment tool that makes it possible for middle and high school teachers to learn more about their students' reading and writing abilities than ever before. Two premier adolescent literacy and literacy assessment experts Bill Brozo and Peter Afflerbach, have incorporated into ALI passages from actual science, social studies, English/Language Arts, and math textbooks, allowing teachers and literacy specialists to efficiently diagnose students' academic literacy abilities. The ALI provides teachers with information not only on reading skill and strategy but also on how students use these in content areas, so teachers can determine the most appropriate text adaptations and instructional strategies for their students. Take a peek inside... Includes authentic assessment passages from actual student textbooks in the four major content area domains Features alternative assessment passages for each grade level and content area Embeds comprehension questions within each passage that allow teachers and students to check for comprehension as they read Allows teacher to determine the best assessment path for each student with the "Decision Tree" feature

Disciplinary Literacy Connections to Popular Culture in K-12 Settings Jan 01 2020 Literacy and popular culture are intrinsically linked as forms of communication, entertainment, and education. Students are motivated to engage with popular culture through a myriad of mediums for a variety of purposes. Utilizing popular culture to bridge literacy concepts across content areas in K-12 settings offers a level playing field across student groups and grade levels. As concepts around traditional literacy education evolve and become more culturally responsive, the connections between popular culture and disciplinary literacy must be explored. Disciplinary Literacy Connections to Popular Culture in K-12 Settings is an essential publication that explores a conceptual framework around pedagogical connections to popular culture. While highlighting a broad range of topics including academic creativity, interdisciplinary storytelling, and skill development, this book is ideally designed for educators, curriculum developers, instructional designers, administrative officials, policymakers, researchers, academicians, and students.

Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education Jan 13 2021 The idea of storytelling goes beyond the borders of language, culture, or traditional education, and has historically been a tie that bonds families, communities, and nations. Digital storytelling offers opportunities for authentic academic and non-academic literacy learning across a multitude of genres. It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education. As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive, the connections between digital storytelling and disciplinary literacy warrant considered exploration. Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education develops a conceptual framework around pedagogical connections to digital storytelling within K-12 disciplinary literacy practices. This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels. Covering topics that include immersive storytelling, multiliteracies, social justice, and pedagogical storytelling, it is intended for stakeholders interested in innovative K-12 disciplinary literacy skill development, research, and practices including but not limited to curriculum directors, education faculty, educational researchers, instructional facilitators, literacy professionals, teachers, pre-service teachers, professional development coordinators, teacher preparation programs, and students.

Structured Literacy Interventions Jun 05 2020 "In this book, structured literacy is conceptualized as an umbrella term encompassing a variety of intervention methods, instructional approaches, and commercial programs. In addition to focusing on SL approaches to intervention, this book is organized around common poor reader profiles that have been identified in research. The chapters in this volume are written by experts who are well known as researchers but who are also highly skilled at writing for practitioners. Chapters were written with a strong foundation of research that is summarized, but with a concentration on translating research into practice, including case studies, sample intervention activities, and lesson plans. Each chapter includes application activities at the end to check for and extend readers' understanding"--

Love & Literacy Jul 07 2020 When our students enter middle and high school, the saying goes that they stop learning to read and start reading to learn. Then why is literacy still a struggle for so many of our students? The reality is that elementary school isn't designed to prepare students for Othello and Song of Solomon: so what do we do? *Love and Literacy* steps into the classrooms of extraordinary teachers who have guided students to the highest levels of literacy. There is magic in their teaching, but that magic is replicable. It starts with a simple premise: kids fall in love with texts when they understand them, and that understanding comes from the right knowledge and/or the right strategy at the right time. *Love and Literacy* dissects the moves of successful teachers and schools and leaves you with the tools to make these your own: Research-based best practices in facilitating discourse, building curriculum, guiding student comprehension and analysis, creating a class culture where literacy thrives, and more Video clips of middle and high school teachers implementing these practices An online, print-ready Reading and Writing Handbook that places every tool at your fingertips to implement effectively Discussion questions for your own professional learning or book study group Great reading is more than just liking books: it's having the knowledge, skill, and desire to experience any text in all its fullness. *Love and Literacy* guides you to create environments where students can build the will and wherewithal to truly fall in love with literacy.
