[Rachel Carson](#) Jun 01 2020 Rachel Carson was a marine biologist credited with the founding of the ecology movement and the rise in ecofeminism. One of her most popular works was *Silent Spring*, which challenged the use of DDT (an insecticide infamous for its negative environmental effects) and questioned the claims of modern industry. Carson also wrote essays, reviews, articles, and speeches to educate the public about the impacts of chemical pollutants on both the environment and the human body. This literary companion provides readers with Carson's key messages via an A-to-Z index of topics discussed in her works including carcinogens, endangered species, and radioactivity.

[Rachel's Cry](#) Oct 25 2019 ""Modern theology needs the rediscovery of the category of consolation. This book is rich of consolations because it takes the cry of lament seriously."" --Jurgen Moltmann ""A timely, accessible, and valuable book. The recovery of the biblical traditions of loss and hurt is intrinsically worth doing, more worth doing in an increasingly disestablished society."" --Walter Brueggemann, Columbia Theological Seminary, Emeritus ""This cross-disciplinary collaboration is . . . poignant and compelling testimony to the personal and communal power of lament and its importance to the practice of ministry. This book is the one that I

have been waiting for." --Christie Cozad Neuger, Brite Divinity School "Few books in the literature of lament have drawn together so much material from the biblical, theological, and pastoral spheres as Rachel's Cry." --Patrick D. Miller, Princeton Theological Seminary "Honesty with God is the doorway to authentic hope and faith. . . . This is one of the most liberating books I have read in a long time." --James Newton Poling, Garrett-Evangelical Theological Seminary "This is the first book to bring scattered discussions together into one coherent whole . . . with deep Christian insight and conviction, with vivid examples, and with learning which is as gracefully communicated as it is broad and deep in its substance. I will be keeping it near at hand, so as to return to it often." -- Nicholas Wolterstorff, Yale University "Rachel's Cry is not only a timely book, it is an urgently needed resource for people who long for a way to live with irrational suffering. Unless we recover the prayer of lament, we are in danger of being trapped in powerlessness, cynicism, and despair." --Herbert Anderson, Catholic Theological Union, Emeritus "I found it difficult to put this book down. Rachel's Cry convincingly argues that an authentic and empowering spirituality requires the language of lament and protest alongside praise and thanksgiving." --Nancy J. Ramsay, Louisville Presbyterian Theological Seminary Kathleen M. Billman is dean of academic affairs and professor of pastoral theology and counseling at Lutheran School of Theology in Chicago. Daniel L. Migliore is Charles Hodge Professor of Systematic Theology at Princeton Theological Seminary.

An Analysis of Rachel Carson's Silent Spring Dec 27 2019 Rachel Carson's 1962 *Silent Spring* is one of the few books that can claim to be epoch-making. Its closely reasoned attack on the use of pesticides in American agriculture helped thrust environmental consciousness to the fore of modern politics and policy, creating the regulatory landscape we know today. The book is also a monument to the power of closely reasoned argument – built from well organised and carefully evidenced points that are not merely persuasive, but designed to be irrefutable. Indeed, it had to be: upon its publication, the chemical industry utilised all its resources to attempt to discredit both *Silent Spring* and Carson herself – to no avail. The central argument of the book is that the indiscriminate use of pesticides encouraged by post-war advances in agriculture and chemistry was deeply harmful to plants, animals and the whole environment, with devastating effects that went far beyond protecting crops. At the time, the argument directly contradicted government policy and scientific orthodoxy – and many studies that corroborated Carson's views were deliberately suppressed by hostile business interests. Carson, however, gathered, organised and set out the evidence in *Silent Spring* in a way that proved her contentions without a doubt. While environmental battles still rage, few now deny the strength and persuasiveness of her reasoning.

**11 - 11 - 11 (Book 1 of John Rachel's End-of-the-World Trilogy)** Jan 28 2020 Meet Noah Tass. Follow him as he tries to escape his hayseed hometown in Missouri. This is not a movie. This is someone's life. Noah was turning 23 and desperate leave. Pulnick had forever been a blemish on the anemic face of rural Bible-belt America. Always bland and soporific, it was now being invaded by white supremacist meth heads, visited by an unprecedented crime wave, exploited by spiritualists and local politicians, and driven to hysteria by paranoid rumors that the world would end on November 11th. Moreover, Noah's personal life was becoming more convoluted by the day. Everything seemed to conspire against his singular need to get out of this dreary, dead-end, death-wish armpit of a town. 11-11-11 is what you call a feel good novel. You'll feel good about your own life when you get a load of the losers who populate this living graveyard!
