History and Financial Crisis Dec 02 2019 One striking weaknesses of our financial architecture, which helped bring on and perhaps deepen the Panic of 2008, is an inadequate appreciation of the past. Information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples. *History and Financial Crisis: Lessons from the 20th Century* is an attempt to broaden the range of historical sources used by policy makers to understand and treat financial crises. Many recent discussions of the 2008 panic and the economic turmoil have found the situation to either be unprecedented or greatly similar to that of 1931. However, the book's wide range of contributors suggest that the economic crisis of 2008 cannot be categorised in this way. This book was originally published as a special issue of *Business History*.

Statistical News Jun 27 2019

Healthy lives, healthy people Aug 02 2022 The Government recognises that many lifestyle-driven health problems are at alarming levels: obesity; high rates of sexually transmitted infections; a relatively large population of drug users; rising levels of harm from alcohol; 80,000 deaths a year from smoking; poor mental health; health inequalities between rich and poor. This white paper outlines the Government's proposals to protect the population from serious health threats; help people live longer, healthier and more fulfilling lives; and improve the health of the poorest. It aims to empower individuals to make healthy choices and give communities and local government the freedom, responsibility and funding to innovate and develop ways of improving public health in their area. The paper responds to Sir Michael Marmot's strategic review of health inequalities in England post 2010 - "Fair society, healthy lives" (available at <http://www.marmotreview.org/AssetLibrary/pdfs/Reports/FairSocietyHealthyLives.pdf>) and adopts its life course framework for tackling the wider social determinants of health. A new dedicated public health service - Public Health England - will be created to ensure excellence, expertise and responsiveness, particularly on health protection where a national response is vital. The paper gives a timetable showing how the proposals will be implemented and an annex sets out a vision of the role of the Director of Public Health. The Department is also publishing a fuller story on the health of England in "Our health and wellbeing today" (http://www.dh.gov.uk/pr od_consum_dh/groups/dh_digitalassets/@dh/@en/@ps/documents/digitalasset/dh_122238.pdf), detailing the challenges and opportunities, and in 2011 will issue documents on major public health issues.

The Oxford Handbook of Employment Relations Jun 07 2020 This Handbook is a comparative treatment of employment relations, providing frameworks and empirical evidence for understanding trends in different parts of the world.

Ministerial Policy Statement to Parliament for the Financial Year ... Nov 12 2020

Toilet Paper: Sep 10 2020 "Toilet Paper" is an artists' magazine created and produced by Maurizio Cattelan and Pierpaolo Ferrari, born out of a passion or obsession they both cultivate: images. The magazine contains no text; each picture springs from an idea, often simple, and through a complex orchestration of people it becomes the materialization of the artists' mental outbursts. Since the first issue, in June 2010, "Toilet Paper" has created a world that displays ambiguous narratives and a troubling imagination. It combines the

vernacular of commercial photography with twisted narrative tableaux and surrealistic imagery. The result is a publication that is itself a work of art which, through its accessible form as a magazine, and through its wide distribution, challenges the limits of the contemporary art economy.

SSC CGL 10 Year-wise Tier I Solved Papers (2010-18) Sep 03 2022

Regional Trade Agreements and the Multilateral Trading System Oct 24 2021 This book explores bilateral and regional trade agreements, and examines how they are changing international trade rules. It offers an important contribution to the current debate on the role of the WTO in regulating international trade and how WTO rules relate to new rules being developed by regional trade agreements.

OECD Economic Surveys: Italy 2011 Oct 31 2019 OECD's periodic economic survey of the Italian economy. This 2011 edition features chapters covering strengthening the economic recovery and fiscal sustainability, the contribution of universities to economic growth, and environmental policy.

2014 International Conference on Computer, Network Security and Communication Engineering (CNSCE2014) May 19 2021 The objective of the 2014 International Conference on Computer, Network Security and Communication Engineering (CNSCE2014) is to provide a platform for all researchers in the field of Computer, Network Security and Communication Engineering to share the most advanced knowledge from both academic and industrial world, to communicate with each other about their experience and most up-to-date research achievements, and to discuss issues and future prospects in these fields. As an international conference mixed with academia and industry, CNSCE2014 provides attendees not only the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between members of these groups but also a good opportunity to make friends with scholars around the world. As the first session of the international conference on CNSCE, it covers topics related to Computer, Network Security and Communication Engineering. CNSCE2014 has attracted many scholars, researchers and practitioners in these fields from various countries. They take this chance to get together, sharing their latest research achievements with each other. It has also achieved great success by its unique characteristics and strong academic atmosphere as well as its authority.

The Stationery Office Annual Catalogue 2011 Nov 24 2021 The Stationery Office annual catalogue 2011 provides a comprehensive source of bibliographic information on over 4900 Parliamentary, statutory and official publications - from the UK Parliament, the Northern Ireland Assembly, and many government departments and agencies - which were issued in 2011.

Information Modelling and Knowledge Bases XXIII Sep 30 2019 Information modelling and knowledge bases have become hot topics, not only in academic communities concerned with information systems and computer science, but also wherever information technology is applied in the world of business. This book presents the proceedings of the 21st European-Japanese Conference on Information Modelling and Knowledge Bases (EJC 2011), held in Tallinn, Estonia, in June 2011. The EJC conferences provide a worldwide forum for researchers and practitioners in the field to exchange results and experiences achieved in computer science and related disciplines such as conceptual analysis, design and specification of information systems, multimedia information modelling, multimedia systems, software engineering, knowledge and process management, cross cultural communication and context modelling. Attention is also paid to theoretical disciplines including cognitive science, artificial intelligence, logic, linguistics and analytical philosophy. The selected papers (16 full papers, 9 short papers, 2 papers based on panel sessions and 2 on invited presentations), cover a wide range of topics, including database semantics, knowledge representation, software engineering, www information management, context-based information retrieval, ontology, image databases, temporal and spatial databases, document data management, process management, cultural modelling and many others. Covering many aspects of system modelling and optimization, this book will be of interest to all those working in the field of information modelling and knowledge bases.

The importance of teaching Sep 22 2021 England's school system performs below its potential and can improve significantly. This white paper outlines action designed to: tackle the weaknesses in the system; strengthen the status of teachers and teaching; reinforce the standards set by the curriculum and qualifications; give schools back the freedom to determine their own development; make schools more accountable to parents, and help them to learn more quickly and systematically from good practice elsewhere; narrow the gap in attainment between rich and poor. The quality of teachers and teaching is the most important factor in determining how well children do. The Government will continue to raise the quality of new entrants to the profession, reform initial teacher training, develop a network of "teaching schools" to lead training and development, and reduce the bureaucratic burden on schools. Teachers will be given more powers to control bad behaviour. The National Curriculum will be reviewed, specifying a tighter model of knowledge of core subjects so that the Curriculum becomes a benchmark against which school can be judged. Schools will be given more freedom and autonomy, the Academies programme extended and parents will be able to set up "Free Schools" to meet parent demand. Accountability for pupil performance is critical, and much more information will be available to aid understanding of a school's performance. School improvement will be the responsibility of schools, not central government. Funding of schools needs to be fairer and more transparent, and there will be a Pupil Premium to target resources on the most deprived pupils.

Human Development Report Apr 05 2020

The IMF and the Crises in Greece, Ireland, and Portugal May 07 2020 This volume book brings together nine background papers prepared for an evaluation by the IMF Independent Evaluation Office of "the IMF and the crises in Greece, Ireland, and Portugal." It presents an authoritative work on the evolving relationship between the IMF and the euro area, a common currency area founded in 1999 consisting of advanced, highly integrated economies in Europe. The euro area, or any common currency area for that matter, has posed challenges to the IMF's operational activities as its Articles of Agreement contain no provision for joint membership. The challenges became intense when a series of crises erupted in Greece, Ireland, and Portugal from 2009 to 2011, and the Fund was called upon to help intervene by offering its financing and crisis management expertise. The IMF found itself in uncharted territory where there was no precedent or established procedure. The chapters, many of which are prepared by prominent academics and former senior IMF officials who are thoroughly familiar with internal procedures, discuss various aspects of the IMF's engagement with the euro area, including precrisis surveillance, how key decisions were made, how the IMF collaborated with European institutions, and how it designed and implemented its lending programs with the three crisis countries. The book gives prominence to governance-related issues, given the large voting share (of more than 20 percent) within the IMF of euro area members and the subsequent public perception that the IMF treated the euro area more favorably than it does developing and emerging market members. The approaches are both cross-cutting and country-based. Some chapters deal with issues related to the euro area as a whole, while others focus on how the Fund engaged with individual euro area countries. The book contains a statement on the IEO evaluation by the IMF Managing Director and a Summing Up of the Executive Board discussion held in July 2016.

The Beauty of a Social Problem Mar 05 2020 Bertolt Brecht once worried that how we feel about the victims of a social problem can get in the way of the beauty and attraction of the problem itself. In this book, Walter Benn Michaels explores the same dilemma through a study of several contemporary artist-photographers whose work speaks to questions of political economy. Michaels focuses on the work of several artists, mostly born in the 1970s and thus raised in a world where artistic ambition has been identified with a critique of autonomous form and of meaning as a function of intention. Michaels shows that these artists engage but also push beyond this critique of autonomy and intentionality, producing works that embody a new commitment to form and meaning. The explanation for this commitment, he argues, is these artists consciousness of making art in an economy riven by structural conflict, especially an unprecedented rise in inequality. For them, he argues, the relationship of the art work to the world to its subject and to its beholder functions as an emblem of the relation between classes (rather than identities or subject positions). This book will join the short shelf of essential writings about the medium of photography."

Diplomatic White Paper 2015 Jan 15 2021 1. World Trends in 2014 Chapter 1 Overview of International Situation Chapter 2 Korea's Foreign Policy 2. Securing Peace and Stability on the Korean Peninsula Chapter 1 Maintaining Stability on the Korean Peninsula Chapter 2 Strengthening Momentum for Progress on the North Korean Nuclear Issue Chapter 3 Enhancing and Deepening the ROK-US Strategic Alliance Chapter 4 Strengthening Cooperation with Neighboring Countries 3. Establishing an Effective System for Trust-based Diplomacy Chapter 1 Strengthening Diplomatic Capacity for the Successful Implementation of Trust-based Diplomacy Chapter 2 Improving the Education and Evaluation System Chapter 3 Personnel and Organizational Restructuring

The Winton M. Blount Postal History Symposia Select Papers, 2010-2011 Nov 05 2022 Rarely do scholars of postal organizations and systems meet and discuss their ideas and research with scholars of philately. In an attempt to bridge this gap, the National Postal Museum and the American Philatelic Society hosted the first Winton M. Blount Postal History symposium on 3-4 November 2006 to bring together these two research groups to discuss postal history. This publication covers the next two symposia. The 2010 theme was "Stamps and the Mail: Images, Icons and Identity." Stamps, as official government documents, can be treated as primary resources designed to convey specific political and esthetic messages. Other topics and themes for the symposium were stamp design's influence on advertising envelopes and bulk mailings, censorship of stamps as propaganda as used on letters, and the role of the Citizens' Stamp Advisory Committee or organizations that generate the designs. The 2011 symposium was held at the American Philatelic Center in

conjunction with the United States Stamp Society's annual meeting. The United States Stamp Society is the preeminent organization devoted to the study of U.S. stamps. It is a nonprofit, volunteer-run association of collectors to promote the study of the philatelic output of the Bureau of Engraving and Printing and of postage and revenue stamped paper produced by others for use in the United States and U.S. administered areas. The theme of the symposium was "How Commerce and Industry Shaped the Mails."

Engineering Management Aug 10 2020 The *Engineering Management* book synthesises the engineering principles with business practice, i.e. the book provides an interface between the main disciplines of engineering/technology and the organizational, administrative, and planning abilities of management. It is complementary to other sub-disciplines such as economics, finance, marketing, decision and risk analysis, etc. This book is intended for engineers, economists and researchers who are developing new advances in engineering management, or who employ the engineering management discipline as part of their work. The authors of this volume describe their pioneering work in the area or provide material for case studies successfully applying the engineering management discipline in real life cases.

Three Year Plan Approach Paper, 2010/11-2012/13 Oct 04 2022

European Economy Feb 02 2020

A Decade of Research on School Principals Apr 29 2022 This book provides a unique map of the focus and directions of contemporary research on school leadership since 2000 in 24 countries. Each of these directions has its own particular cultural, educational and policy history. Taken together, the various chapters in the volume provide a rich and varied mosaic of what is currently known and what is yet to be discovered about the roles and practices of principals, and their contributions to the improvement of teaching and the learning and achievement of students. The particular foci and methodological emphases of the research reported illustrate the different phases in the development of educational policies and provision in each country. This collection is an important addition to existing international research that has shown beyond any reasonable doubt that the influence of school principals is second only to that of teachers in their capacity to impact students' progress and achievement and to promote equity and social justice.

STEM Integration in K-12 Education Feb 13 2021 *STEM Integration in K-12 Education* examines current efforts to connect the STEM disciplines in K-12 education. This report identifies and characterizes existing approaches to integrated STEM education, both in formal and after- and out-of-school settings. The report reviews the evidence for the impact of integrated approaches on various student outcomes, and it proposes a set of priority research questions to advance the understanding of integrated STEM education. *STEM Integration in K-12 Education* proposes a framework to provide a common perspective and vocabulary for researchers, practitioners, and others to identify, discuss, and investigate specific integrated STEM initiatives within the K-12 education system of the United States. *STEM Integration in K-12 Education* makes recommendations for designers of integrated STEM experiences, assessment developers, and researchers to design and document effective integrated STEM education. This report will help to further their work and improve the chances that some forms of integrated STEM education will make a positive difference in student learning and interest and other valued outcomes.

PROC REPORT by Example May 31 2022 *PROC REPORT by Example: Techniques for Building Professional Reports Using SAS* provides real-world examples using PROC REPORT to create a wide variety of professional reports. Written from the point of view of the programmer who produces the reports, this book explains and illustrates creative techniques used to achieve the desired results. Each chapter focuses on a different concrete example, shows an image of the final report, and then takes you through the process of creating that report. You will be able to break each report down to find out how it was produced, including any data manipulation you have to do. The book clarifies solutions to common, everyday programming challenges and typical daily tasks that programmers encounter. For example: obtaining desired report formats using style templates supplied by SAS and PROC TEMPLATE, PROC REPORT STYLE options, and COMPUTE block features employing different usage options (DISPLAY, ORDER, GROUP, ANALYSIS, COMPUTED) to create a variety of detail and summary reports using BREAK statements and COMPUTE blocks to summarize and report key findings producing reports in various Output Delivery System (ODS) destinations including RTF, PDF, XML, TAGSETS.RTF embedding images in a report and combining graphical and tabular data with SAS 9.2 and beyond Applicable to SAS users from all disciplines, the real-life scenarios will help elevate your reporting skills learned from other books to the next level. With *PROC REPORT by Example: Techniques for Building Professional Reports Using SAS*, what seemed complex will become a matter of practice. This book is part of the SAS Press program.

50 Years of Central Banking in Kenya Dec 14 2020 "This book documents important milestones in the epic journey traversed by the Central Bank of Kenya over the last 50 years, putting into perspective the evolution of central banking globally and within the East African region, and contemplating future prospects and challenges. The book is timely, mainly because the global financial landscape has shifted. Central bankers have expanded their mandates, beyond the singular focus on inflation and consider economic growth as their other important objective. Financial crises have continued to disrupt the functioning of financial institutions and markets, the most devastating episodes being the global financial crisis, which broke out in 2008 and from

which the global financial system has not fully recovered, and the unprecedented challenges posed by the global coronavirus pandemic. Bank regulation has moved from Basel I, to Basel II, and somehow migrated to Basel III, although some countries are still at the cross-roads. The book originated from the wide ranging discussions on central banking, from a symposium to celebrate the 50 year anniversary on 13 September 2016 in Nairobi. The participants at the symposium included current and former central bank governors from Kenya and the Eastern Africa region, high level officials from multilateral financial institutions, policy makers, bank executives, civil society actors, researchers and students. The book is an invaluable resource for policy makers, practitioners and researchers, on how monetary policy and financial practices in vogue today in Kenya have evolved through time and worked very well, but also about some pitfalls"--

Behaviour of Steel Structures in Seismic Areas Jul 09 2020 9th STESSA 2018 Selected, peer reviewed papers from the 9th International Conference on the Behaviour of Steel Structures in Seismic Areas (STESSA 2018), February 14-17, 2018, Christchurch, New Zealand

Proceedings of China SAE Congress 2021: Selected Papers Oct 12 2020 These proceedings gather outstanding papers presented at the China SAE Congress 2021, held on Oct. 19-21, Shanghai, China. Featuring contributions mainly from China, the biggest carmaker as well as most dynamic car market in the world, the book covers a wide range of automotive-related topics and the latest technical advances in the industry. Many of the approaches in the book will help technicians to solve practical problems that affect their daily work. In addition, the book offers valuable technical support to engineers, researchers and postgraduate students in the field of automotive engineering.

Global Innovation Index 2011 Jan 27 2022 The Global Innovation Index ranks the innovation performance of 125 countries and economies around the world, based on 80 indicators. This edition explores the impact of innovation-oriented policies on economic growth and development. High-income and developing countries alike are seeking innovation-driven growth through different strategies. Some countries are successfully improving their innovation capacity, while others still struggle.

Lectures in the Senate Occasional Lecture Series, and Other Papers Aug 29 2019

Rise and Decline and Rise of China Jan 03 2020 Running like a red thread through this book are the manifestations of Sino-African relations dating back many centuries. In this way, *The Rise and Decline and Rise of China: Searching for an Organising Philosophy* takes forward the work MISTRA conducted on the Mapungubwe society, one of the advanced states that existed in southern Africa some 800 years ago. What makes this research report unique, though, is that the treatment of these issues has been undertaken primarily from an African perspective.

The natural choice Dec 26 2021 This white paper sets out proposals for a detailed programme of action to repair damage done to the environment in the past, and urges everyone to get involved in helping nature to flourish at all levels - from neighbourhoods to national parks. The plans are directly linked to the groundbreaking research in the National Ecosystem Assessment that showed the strong economic arguments for safeguarding and enhancing the natural environment. They also act on the recommendations of 'Making Space for Nature', a report into the state of England's wildlife sites, led by Professor John Lawton and published in September 2010, which showed that England's wildlife sites are fragmented and not able to respond to the pressures of climate change and other pressures we put on our land. Key measures proposed include: i) Reconnecting nature with New Nature Improvement Areas (NIAs) with a £7.5 million fund for 12 initial NIAs, biodiversity offsetting, New Local Nature Partnerships with £1 million available this year, phasing out peat, ii) Connecting people and nature for better quality of life with Green Areas Designation, better urban green spaces; more children experiencing nature by learning outdoors, strengthening local public health activities, the new environmental volunteering initiative "Muck in 4 Life" to improve places in towns and countryside for people and nature to enjoy and iii) Capturing and improving the value of nature with a Natural Capital Committee; an annual statement of green accounts for UK Plc, a business-led Task Force to expand the UK business opportunities from new products and services which are good for the economy and nature alike.

Spillover Effects of China Going Global Aug 22 2021 When the People's Republic of China (PRC) was granted Most Favored Nation (MFN) status by the United States in 1979, no one imagined the massive transformation the Chinese economy would make within a few decades. China's remarkable transition from merely being a "world factory", to the source of the world's new R&D and product design and innovation since the 1980s is the key focus of *Spillover Effects of China Going Global*. In this insightful and unique book, Joseph Pelzman shows how the second largest world economy triggered off many spillover effects beyond mass-labour production of durable and non-durable goods — such as the provision of foreign aid to African, Latin American and Asian economies, and increasing focus on internal endogenous innovation, research and development. He provides a comprehensive look at these spillover effects and analyzes how they will undoubtedly bring positive opportunities for others within the rest of the world in the 21st Century.

Trade, Globalization and Development Apr 17 2021 This book was written in honour of Professor Kalyan K. Sanyal, who was an excellent educator and renowned scholar in the field of international economics. One of his research papers co-authored with Ronald Jones, entitled "The Theory of Trade in Middle Products" and published in *American Economic Review* in 1982, was a seminal work in the field of international trade theory.

This paper would go on to inspire many subsequent significant works by researchers across the globe on trade in intermediate goods. The larger impact of any paper, beyond the number of citations, lies in terms of the passion it sparks among younger researchers to pursue new questions. Measured by this yardstick, Sanyal's contribution in trade theory will undoubtedly be regarded as historic. After completing his Ph.D. at the University of Rochester he joined the Department of Economics at Calcutta University in the early 1980s and taught trade theory there for almost three decades. His insights, articulation and brilliance in teaching international economics have influenced and shaped the intellectual development of many of his students. After his sudden passing in February 2012, his students and colleagues organized a symposium in his honour at the Department of Economics, Jadavpur University from April 19 to 20, 2012. This book, a small tribute to his intellect and contribution, has been a follow-up on that endeavour, and a collective effort of many people including his teachers, friends, colleagues and students. In a nutshell it discusses intermediation of various kinds with significant implications for market integration through trade and finance. That trade can generate many non-trade-service sector links has recently emerged as a topic of growing concern and can trace its lineage back to the idea of the middle product, a recurring concept in Prof. Sanyal's work.

Shifting Power in Asia-Pacific? Jun 19 2021 This book investigates whether a power shift has taken place in the Asia-Pacific region since the end of the Cold War. By systematically examining the development of power dynamics in Asia-Pacific, it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour. With a special emphasis on Sino-US competition, the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities, national power and the much-cited regional power shift. The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power (CIAP) that includes 55 variables for 44 regional countries and covers a period of twenty years. Moreover, it develops a middle power theory that outlines the significance of middle powers in times of major power shifts. By addressing political, military and economic cooperation via a structured-focused comparison and by applying a comparative-historical analysis, the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing.

ICILS 2020 Mar 17 2021 This book reflects and intimate discusses various topics and issues concerning to legal studies and its development in Indonesia and Global perspective. This book is dedicated to all legal practitioners and scholars around the world that have been presented their best works and ideas in the 3rd ICILS International Conference, 2020, held by Faculty of Law Universitas Negeri Semarang, Indonesia in July 2020 by Online Conference System. The 66 full papers presented were carefully reviewed and selected from 105 submission. The paper reflects the conference sessions as follow: Law and Technology, Private and Commercial Law, Law and Politics, Public Law, Comparative Law, and other related issues on legal development, including Law Tech and Human Behavior. The 3rd ICILS International Conference 2020 also co-hosted by Jayabaya University, Jakarta and University of Muhammadiyah Malang.

Human-Computer Interaction -- INTERACT 2013 Jul 29 2019 The four-volume set LNCS 8117-8120 constitutes the refereed proceedings of the 14th IFIP TC13 International Conference on Human-Computer Interaction, INTERACT 2013, held in Cape Town, South Africa, in September 2013. The 55 papers included in the second volume are organized in topical sections on E-input/output devices (e-readers, whiteboards), facilitating social behaviour and collaboration, gaze-enabled interaction design, gesture and tactile user interfaces, gesture-based user interface design and interaction, health/medical devices, humans and robots, human-work interaction design, interface layout and data entry, learning and knowledge-sharing, learning tools, learning contexts, managing the UX, mobile interaction design, and mobile phone applications.

OECD Economic Surveys: China 2013 Jul 21 2021 OECD's 2013 Economic Survey of China examines recent economic developments, policies and prospects. Special chapters cover inclusive urbanisation and reforms for a healthier environment.

TERI Energy Data Directory & Yearbook (TEDDY) 2012/13 Jul 01 2022 TERI Energy Data Directory Yearbook, or TEDDY, is an annual publication brought out by TERI since 1986. TEDDY is often used as a reference in other peer-reviewed books and journals for energy and environment-related data. It gives an annual overview of the developments in the energy supplying and consuming sectors as well as the environment sector. It also provides a review of the government policies that have implications for these sectors of the Indian economy. TERI Energy Data Directory Yearbook, or TEDDY, is an annual publication brought out by TERI since 1986. TEDDY is often used as a reference in other peer-reviewed books and journals for energy and environment-related data. It gives an annual overview of the developments in the energy supplying and consuming sectors as well as the environment sector. It also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the past four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for anybody working on energy and related sectors.
